Chancellor's Message

The University of Science and Technology of Fujairah (USTF) is dedicated to achieving excellence in teaching, research, and services to enable students to lead their lives and to make their university experience rich, fruitful and enjoyable.

USTF considers integrated interactions an essential priority to build a creative environment where initiatives and unconventional thinking are developed to maximize the benefits of humankind.

With its remarkable set of faculty, staff and accredited programs, USTF is going to continue using cutting-edge technology in a research-oriented manner to ensure quality education and to work together with external community towards allowing monumental impact in sustainable development of UAE and the region.

The strategic location of USTF makes it easily accessible from multiple locations and the sensational scenery of ocean and mountains in Fujairah provide a feel of openness reflecting what the university represents, an open platform for creativity, exploration and learning.

Prospective students are encouraged to pay a visit to our expanding campus, where they will be able to explore all the facilities available, to meet their future mentors and to become a part of our on-growing academic community.

I am honored to welcome you to USTF where the collective efforts of our faculty, staff, students, and greatest community will keep us moving forward together to create a bright, prosperous and promising future for us all.

Prof. Dr. Ali Abou-Elnour

Chancellor

EmSAT Preparatory Course

Wednesday, Aug 31, 2022

The Training and Continuing Education Centre at University of Science and Technology of Fujairah held training courses to prepare the students and introduce them to the Emirates Standardized Test (EmSAT) by professional training experts in teaching.

The series of EmSAT preparatory training courses extended during the summer admission period and aimed to provide an overview of the components of various EmSAT tests and providing the students with sample tests in addition to preparation materials to make the students more acquainted with the test contents and format, in addition to a mock exam enabling students to experience the atmosphere of the actual exam and to be ready for it.

It is worth mentioning that the Training and Continuing Education Centre is going to conduct similar training seminars on monthly bases during the whole year starting from September 2022.

Reception Ceremony of Newly Admitted students at USTF

Thursday, Sep 01, 2022

Reception Ceremony of Newly Admitted students at USTF

The Office of Alumni, Career Counseling and Events at the University of Science and Technology of Fujairah organized a reception ceremony to welcome new students who joined the university in the Fall Semester of the academic year 2022/2023, in the conference hall of the University.

The ceremony was attended by His Excellency Prof. Ali Abouelnour – USTF Chancellor, Prof. Zeinelabidin Rizk - Vice Chancellor for Academic Affairs, and Dr. Ahmed Zain Elabdin - Vice Chancellor for Administrative and Financial Affairs, College Deans and Heads of Academic and Administrative Staff, Faculty Members, in addition to new students and their families.

The ceremony began with the national anthem and verses from the Holy Quran, then an excerpt from the words of His Highness Sheikh Mohammed bin Hamad bin Mohammed Al Sharqi - Crown Prince of the Emirate of Fujairah - may Allah protect him, and Chairman of the University's Board of Trustees.

His Excellency Prof. Zeinelabidin, wished all the success to the new students, urging them to earnestly and diligently in the acquisition of knowledge and constant communication with professors and academic advisors to maximize the experiences they will gain during their studies at the University. Also, Dr. Ahmed, welcomed the new students in his speech which covered the various measures taken by the University to maintain the safety of its community related to the recent challenges of the

Covid-19 Pandemic.

After that, the College Deans and the directors of the academic units introduced themselves to the guests of the ceremony, after which the discussion was opened with the new students.

Orientation Week of Newly admitted at USTF

Thursday, Sep 01, 2022

Orientation Week of Newly admitted at USTF

As a part of the orientation week for the newly admitted students at the University, the Training and Continuing Education Center at the University of Science and Technology of Fujairah organized several consecutive sessions over three days for orientation of new students joining the university in the Fall semester of the academic year 2022/2023.

These sessions aimed to introduce students to their new university life, introducing the academic and administrative structures, as well as introducing the various university facilities and support services provided by the university to students, including the services of admission and registration, finance, student affairs, information technology, learning resources, and

others.

During the sessions, students were introduced on how to view university documents through the university website on the internet. The communication channels of the various university units were also introduced and how to access those channels through the contacts directory that was distributed to students, in addition to the map of

the university internal and external facilities directory.

The second part of the daily orientation sessions included introduction of many important academic terms and skills in university life, in addition to several rules related to student's performance (ex: GPA, registration, results, and others).

Basic Life Support Training Course

Friday, Sep 02, 2022

Basic Life Support Training Course
The International Training Centre at the University of Science and Technology of Fujairah (USTF ITC) conducted several training courses that aims to enhance an individual's action during life and cardiac threatening conditions.

During the training sessions, the trainees practiced the right way to perform high-performance Cardiopulmonary Resuscitation, Operation of Automated Defibrillator, and Dealing with choking cases among adults, child, and infants.

It is worth mentioning that the USTF ITC is an authorized training center by the American Heart Association which

is a prestigious scientific organization founded on 1924 and based in United States of America. It aims to be a restless force for longer and healthier lives, especially regarding the heart and blood vessels.

The center also offers other training courses approved by the American Heart Association for individuals who are not working in the medical sector.

Emirati Women Day Celebration

Friday, Sep 02, 2022

Emirati Women Day Celebration

On the Emirati Women's Day Celebrations, Thumbay Hospital at Fujairah has honored the University of Science and Technology of Fujairah for the University's efforts and sustainable march in supporting Emirati Women and enhancing the position in the society.

The ceremony was attended by students from the College of Pharmacy and Health Sciences and the College of Dentistry at USTF.

The honoring ceremony was held

on the second of September 2022 at Thumbay Hospital in Fujairah. USTF was represented in this honoring ceremony by Student Sarah Al Yammahi who received the trophy in honor of her distinguished career and outstanding accomplishments in various fields that make her a model of successful Emirati women.

The honoring ceremony was held on the second of September 2022 at Thumbay Hospital in Fujairah. The university was represented in this honor by the student Sarah Al Yammahi, who received the shield in honor of her distinguished career and achievements that touched

the sky in various academic and cultural fields, making her a model for Emirati women in supporting their society and country.

Launching the first legal marathon for creatives 2022

Tuesday, Sep 13, 2022

The First Legal Marathon for Creatives was launched yesterday, September 13, 2022. The marathon is a partnership between the Ministry of Justice in Fujairah and the University of Science and Technology in Fujairah.

The marathon includes five institutions from the Emirate of Fujairah: the Federal Authority for Identity and Citizenship, the Human Resources Department in the Government of the Emirate of Fujairah, the Document for Businessmen Services (Tas'eel), the Fujairah Culture and Media Authority, and the College of Law at the University of Science and Technology in Fujairah. The idea behind this initiative is to clarify innovative legal solutions to some of the challenges that these institutions face.

His Excellency Prof. Ali Abu Al-Nour, University Chancellor, expressed his thanks and appreciation to His Excellency Dr. Ahmed Muhammad Al-Shehhi, President of the Fujairah Federal Court of First Instance, for his personal follow-up to the preparations for the marathon, and he also thanked the institutions that provided innovative legal ideas and solutions.

At the opening of the events, His Excellency Prof. Ali Abu Al-Nour, the Rector of the University, expressed his thanks and appreciation to His Excellency Dr. Ahmed Muhammad Al-Shehhi, President of the Fujairah Federal Court of First Instance, for his personal follow-up to the preparations for the marathon, and he also thanked the institutions that provided innovative legal ideas and solutions.

The marathon activities were concluded by announcing the names of the winning teams, where The College of Law won first place in their category; Al-Mostand for businessmen services came in second place

Engineering and Technology Club first meeting

Tuesday, Sep 20, 2022

The Engineering and Technology Club of the University of Science and Technology in Fujairah held its first meeting for the academic year 2022-2023, with club members from the college students, under the supervision of Dr. Yomna Shaker, Dr. Haytham Elmessiry, Dr. Ola Sherif, Eng. Momen Odeh, Eng. Lamiaa Hussein, Ms. Marah Aladdin on Tuesday, September 20, 2022.

The club supervisors welcomed both new and old students and introduced the club, showed its goals, and plans for the current academic year, and agreed with the students on the schedule of activities to be held during the current academic year. They then opened the floor for students to share their thoughts, ideas, and ambitions for the current academic year.

The club's main activities for this year have been approved, with the condition that periodic meetings will be held to determine the implementation of the activities.

At the end of the meeting the floor was opened for the students for questions and suggestions which were replied by the corresponding COPHS staff member.

PlayStation Championship

Thursday, Sep 22, 2022

The PlayStation Championship, organized by the University of Science and Technology in Fujairah, ended with the participation of 20 players representing different colleges, who presented good and strong levels throughout the tournament.

Ahmed Khader Abdel Wahab from the College of Engineering was able to win first place, after defeating his

competitor Ahmed Mohamed Kaddoura from the College of Engineering, who came in second place, while Hamad Adnan from the College of Engineering also won third place.

Dr. Sameh Khamis, Director of Admissions and Registration, crowned the winners of first place, in the presence of Dr. El-Sayed Abdel-Rahman, Dr. Ramadan Ismail, Ramzi Ghoneim, the sports supervisor, and a large group of students. After the coronation

ceremony,

Prof. Dr. Ali Abu Al-Nour, President of the University, praised the great success achieved by the tournament, and the high level and skills of the participating students, stressing the great interest that the University of Science and Technology in Fujairah attaches to sports, entertainment, and social aspect, to enrich university life.

He congratulated the winners and thanked the organizing committee.

USTF students visit WETEX Dubai trade center

Tuesday, Sep 27, 2022

The Department of Electrical Engineering at the University of Science and Technology in Fujairah visited the Water, Energy, and Environmental Technology Exhibition “WETEX” and Dubai Solar Show under the supervision of Dr. Youmna Shaker, Eng. Momen Odeh, and Eng. Lamiaa Hussein, on Tuesday, September 27, 2022.

Engineering students viewed the latest technologies and innovations in the energy, water, renewable energy, and environmental sectors, as well as learned about market needs.

One specialist workshop and different hats In Drama Therapy

Tuesday, Sep 27, 2022

Deanship of students affairs

One specialist workshop and different hats In Drama Therapy

Monday 26-09-2022 for female students

Tuesday 27-09-2022 for Male Students

Counseling and Happiness Center (CHC) provided a workshop of one specialist and several hats and the significance

behind this interactive activity is to allow students to consciously explore and link the different roles they play in the therapeutic session and in different professions as a psychologist, social worker, doctor, engineer... From (listener, observer, facilitator, analyst, leader, mentor....)

Artistic materials were brought and given 30 minutes to each participant to make his own hat. The activity then became more specific as they chose between 4 roles (the most challenging, the most cheerful hat, the most neglected hat,

and the magic hat). They were given 10 minutes to create a hat-specific story. Exchanging and sharing stories and other activities took place during the workshop.

The workshop was presented by Dr. Shimaa Basha, Associate Professor of Psychology, and the students expressed their desire to repeat such distinguished workshops that helped them to regain their activity and start their lectures more actively..

The College of Business Administration at the University of Science and Technology of Fujairah Organizes an Orientation Meeting for Students of The College from the Master of Business Administration (MBA) Program

Sunday, Oct 02, 2022

The College of Business Administration at the University of Science and Technology of Fujairah Organizes an Orientation Meeting for Students of The College from the Master of Business Administration (MBA) Program

The College of Business Administration at the University of Science and Technology of Fujairah organized an introductory meeting for students of the Master of Business Administration (MBA) program at the College of Business Administration.

Dr. Abdallah Elamin (Coordinator of the MBA) chaired the meeting with the participation of MBA students involved in the program.

Dr. Elamin welcomed the students, wishing them excellence and success in their next scientific career, urging them to make efforts to achieve scientific and knowledge excellence. In this regard, he pointed out that the MBA program is one discipline that witnesses high demand from the labor market. Therefore, it allows its graduates to join prestigious positions and improve career prospects.

Dr. Elamin explained that the purpose of the meeting is to meet students and discuss their needs, concerns, and aspirations.

He emphasizes the necessity of communication and mutual discussion between the students and their academic advisors. Therefore, it will contribute to the student's involvement in university life and enable them to interact and participate in the various workshops organized by the college to raise the students' skills and help them discover modern education methods.

It will also contribute to directing students to the optimal use of the various available university resources, especially the library and research in its sources, which helps students raise their research skills and increase their scientific abilities in writing research, projects and scientific papers.

During the meeting, Dr. Nasereldeen Alnageeb, the USTF librarian, gave a full explanation to the master's students about the optimal use of library services and urged master's students to know and understand the services provided by

the USTF library and learning resources

Dr. Alnageeb informed them of the sources of information it provides, and the training and education workshops offered by the video videos, which are available on the university's website.

He stressed the importance of master's students getting acquainted with the databases that the student uses and knowing what he needs to help them effectively write the required research and scientific papers.

During the meeting, Dr. Elamin presented a comprehensive introduction to the MBA program and its objectives and discussed its teaching methods, evaluation mechanisms, and expected learning outcomes upon completion of the program.

The meeting was concluded with best wishes for success and progress to students at this vital stage of their academic journey. The students expressed their happiness with this meeting and what it added to their scientific career's value.

Visiting a specialist from the field (Behavior modification workshop)

Tuesday, Oct 04, 2022

Within the framework of the policy pursued by the University of Science and Technology of Fujairah in its vision and interaction with society, and to provide students with knowledge and experience through direct communication and linking the theoretical aspect with the field reality, the Department of Psychology and the Counseling and Happiness Center organized a behavior modification workshop; the Head of the Department of Psychology Dr. Shimaa Basha, the Director of the Center, Dr. Sameh Khamis and Prof. Dr. Sayed Al-Wakeel received faculty members, and Consultants of the Center and students, welcomed on Tuesday, 04-10-2022, Dr. Mohammed Attia Zaki, Special Needs Specialist at the Emirates Schools Establishment on campus, and spoke about the field of special education and the integration of people of determination in the field of education and kindly presented the National Classification of Disabilities

(People of Determination) in the United Arab Emirates, The role of the psychologist in the evaluation, diagnosis and development of counseling and psychotherapy programs for people of determination. The meeting resulted in a set of recommendations, including the implementation of workshops to train students on the tests of Binet Fifth edition and the Vineland Scale of Adaptive Behavior (Social Maturity).

The College of Business Administration, in cooperation with the Securities and Commodities Authority, organizes a seminar on World Investor Week. (WIW 2022)

Tuesday, Oct 04, 2022

College of Business Administration at the University of Science & Technology of Fujairah and in Collaboration with the Securities and Commodities Authority (SCA) in UAE on the occasion of the World Investor Week 2022, organized a Seminar Entitled “The principles of investment and effective financial planning.”

The Dean of the College of Business Administration, Dr. Ahmed Zain Elabdin, explained the importance of such seminars. They are based on the vision of the University to raise interaction with the Business Community.

Mr. Abdulla Al-Abdouli – Awareness & Financial Inclusion Section Head at “SCA,” stated that this event comes in line with World Investor Week, which is organized by the International Organization of Securities Commissions (IOSCO). The (World Investor Week) WIW2022 promotes investment awareness. In addition, it develops the investment culture among small investors new to investing in the financial market and workers in the financial services sector. (Such as intermediaries).

Mrs. Rola Chiekha, Certified Trainer & Specialist at “SCA,” gave a short overview

of the authority and its supervisory role in supervising the securities and commodity markets in the UAE. First, Mrs Rola Reviewed the establishment and development that the authority has gone through and then explained the importance of investment and effective financial planning, especially in the stock markets. In addition, the many opportunities that young people must gain might help them in effective financial planning for their future.

The Seminar witnessed remarkable participation in Deans, Faculties Members, and Students.

She cared hard thanks and gifts for the elderly.

Strategies for Strengthening Psychological Immunity

Wednesday, Oct 19, 2022

workshop entitled: Strategies for Strengthening Psychological Immunity”

Venue: Main Conference Hall

The Department of Psychology and the Centre for Happiness and Counseling in cooperation with the Office of Students’ Affairs at the University of Science and Technology of Fujairah held a workshop titled: Strategies for Strengthening Psychological Immunity”. Professor Dr. Sayed Ahmed Al-Wakil, faculty member at the Department of Psychology at the College of Humanities and Sciences presented the workshop. The workshop started at 3:30 p.m. on Wednesday, 19 October 2022 in the main conference hall. It was attended by faculty members, staff, and students. Psychological immunity is the force that allows individuals overcome challenges and obstacles to achieve success. It contributes to refining the person’s thinking and guide him/her to the optimal and positive way of handling daily life stress and tensions; set realistic goals; work hard to achieve these goals; think positively and implement these positive thoughts to get rid of his/her anxiety, solve his/her problems and live his/her life with a positive and optimistic spirit. There is a strong connection between the individual’s thinking and the level of enduring difficulties and challenges, and will achieve his/her goals. Psychological immunity influences the individual’s beliefs about his/her abilities, resilience in the face of challenges and searching for ways to make things and situations better. Additionally, a person with strong psychological immunity learns and benefits from hard experiences even in the case of failure, he/she does not consider failure a dead end. Therefore, this awareness workshop aimed at shedding light on psychological immunity in terms of definition, relevance, and attributes of persons with high psychological immunity, institutions responsible for developing psychological immunity, as well as some advice, guidelines, and strategies that can be used in enhancing psychological immunity.

Volunteer Club Students Participate in the “Flag Us Our Responsibility” Initiative

Tuesday, Oct 25, 2022

Volunteer Club Students Participate in the “Flag Us Our Responsibility” Initiative

Within the framework of the interest of the University of Science and Technology in Fujairah to activate and spread the culture of volunteerism and community service among its students, a number of students of the Volunteer Club at the University participated in the initiative “Teach us our responsibility” in cooperation with the Department of Social Services - Kalbaa Branch, where participation was represented in the distribution of the state flag to all institutions and government and private departments, and to residential neighborhoods,

in conjunction with the celebration of “Flag Day”, and a clear expression of the extent of pride and loyalty to the dear symbol of the UAE, and this event comes to enhance the sense of identity Patriotism and confirmation of the spirit of belonging and pride in the National Day of the State.

Ila Mata? (Until When?) Book Signature Sharjah International Book Fair

Sharifah Al-Hamady's book 'Ila Mata?!

The book, through narrating the suffering of a young man, embodies the community's ignorance in the name of norms and traditions, and people's gossip. The book does not

narrate a conventional story, rather it details a story "that absorbed reality".

The students toured the SIBF pavilions and checked out the latest books abundant at the SIBF this year. They also met with authors as well as Arab and international well-known media people, including the writer Fahd Bishara. The students obtained some new publications and signed them from the authors. They enjoyed their visit.

Wednesday, Nov 02, 2022

Ila Mata? (Until When?)
Book Signature

Sharjah International Book Fair By:
Sharifah Al-Hamady, a student at the
Department of Psychology

On Wednesday, Nov. 2, 2022, the
Department of Psychology at the
University of Science and Technology

of Fujairah organized a visit to the 40th Sharjah International Book Fair (SIBF) which is held under the slogan 'Spread the word'. The SIBF reflects many ideas related to reading habits, developing reading skills, planning your reading, and organizing reader's priorities. Dr. Shima Basha, Dr. Sayed Alwakeel, Dr. Sameh Khamis, Dr Asmaa Hejazy supervised the visit, and students at the Department of Psychology participated in the visit and in the signature ceremony of student

Basic Disaster / Emergency Response Course

Monday, Nov 07, 2022

Basic Disaster / Emergency Response Course

As per USTF keenness to maintain the safety of its community and the educational environment, USTF Training and Continuing Education Center has organized a training course for USTF employees in collaboration

with Emirates Foundation titled “Basic Disaster / Emergency Response Course”

The course held over 4 days for 16 contact hours and covered crucial topics that are important to know and practice during any emergent situation. It covers basics of emergency response, using first aid boxes, evacuation techniques, using fire extinguisher, and team work in emergency.

After the course, the trainees conducted evacuation drill covered premises assessment, casualties sweeping and evacuation, field hospital operation, and chain of command.

On the last day of the training, HE USTF Chancellor Prof. Ali Abouelnour awarded the trainers Captain Yousef Mohamed Al Darmaky, Captain Mohamed Rashid Al Balooshi, and Captain Muna Saleh Al Showaihi.

Supporting students of determination and those with additional learning needs

Tuesday, Nov 08, 2022

Workshop Title: “Supporting students of determination and those with additional learning needs”

Venue: Main Conference Hall

The Counseling and Happiness Center, in cooperation with the Office of Students’ Affairs at the University of Science and Technology of Fujairah held a workshop titled: Supporting students of determination and those with additional learning needs”. Dr. Mohamed Zaki, Special Needs Specialist at the Emirati Education Establishment,

presented the workshop. The workshop started on Tuesday, Nov. 8, 2022 at 2:30p.m.at the Main Conference Hall. The workshop was attended by a large group of faculty members, administrative staff and students. Dr. Zaki presented the Federal Law no. 29 for year 2006 on the rights of persons with special needs in the U.A.E., amended by Federal law no. 14 for year 2009. He also presented the 2018 unified national classification of disabilities (people of determination)

in the U.A.E.; the needs of students of determination (educational needs, needs during exams, aiding tools and devices, supporting services, and human resources); accommodating the university (campuses). At the end of the workshop, Dr. Zaki answered the participants’ questions. Participants expressed that they benefited from the presented information and the outstanding performance of the presenter.

The University of Science and Technology in Fujairah signs a memorandum of understanding with the Emirates Association of Lawyers and Jurists

Wednesday, Nov 09, 2022

في إقامة المؤتمرات والندوات ذات الصلة بالشأن القانوني وتدعيم البحث العلمي والدراسات في المجالات التي تخدم العمل القانوني والقيام ببحوث ودراسات مشتركة من خلال مراكز البحوث الأكاديمية.

كما سيعمل الطرفان على تنمية قدرات طلبة كلية القانون بالجامعة، وتعزيز برامج الكلية من خلال دمج الجوانب النظرية بالتدريبات العملية القائمة، والتدريب العملي لطلبة الكلية خلال مراحل دراستهم الجامعية وضمن الساعات المعتمدة لكل طالب ووفقاً للأنظمة المعتمدة، والتشريعات النافذة في الدولة.

كما اتفق الطرفان على إدامة التواصل وتبادل الزيارات والاجتماعات لتحقيق المصالح المشتركة، وتبادل المعرفة والخبرات المؤسسية على كافة المستويات المشتركة، بما في ذلك تبادل المعلومات والدراسات والتعليقات والآراء القانونية الحديثة والمستجدة في المجال القانوني.

وقد حضر مراسم التوقيع، عميد كلية القانون الدكتور عيسى الرضي ومجموعة من موظفي الجمعية

وأشار مدير الجامعة، أن توقيع مذكرة تفاهم مع جمعية الإمارات للمحامين والقانونيين، يأتي في إطار حرص الجامعة على تحقيق التميز بالمشاركة المجتمعية من خلال إبرام مذكرات التفاهم واتفاقيات التعاون مع الدوائر والهيئات والمؤسسات بالإمارة والدولة لتكامل جهود الجامعة وشركائها لتقديم الخدمات الفعالة لطلبة الجامعة ولكافة شرائح المجتمع.

وأوضح سعادة الأستاذ الدكتور محمد بطي الشامسي، أن المذكرة تأتي في سياق حرص الجمعية على تحقيق الأهداف الاستراتيجية لها، ومد جسور التعاون مع كافة الجهات والمؤسسات الأكاديمية الرائدة وبأن هذه المذكرة تصب في هذا الاتجاه وتفتح أفقاً جديداً للتعاون مع الجامعة، مشيراً إلى أن التعاون مع الجامعة يأتي تحقيقاً للهدف المشترك بدعم التطوير المهني القانوني المستمر للطلبة ولمزاولي المهنة القانونية.

ووفقاً للمذكرة سيحرص طرفاها على تقديم أفضل الممارسات التي تخدم المجتمع في الحقل القانوني، من خلال تبادل الخبرات العلمية والبحثية وفق نظام مؤسسي متقدم وفعال لخدمة كافة فئات المجتمع، والتعاون

جامعة العلوم والتقنية في الفجيرة توقيع مذكرة تفاهم مع جمعية الإمارات للمحامين والقانونيين

وقع الاتفاقية عن الجامعة مديرها سعادة الأستاذ الدكتور علي أبو النور، وعن جمعية الإمارات للمحامين والقانونيين رئيسها سعادة الأستاذ الدكتور محمد بطي الشامسي، واستهل مدير الجامعة مراسم التوقيع بكلمة ترحيبية، أعرب من خلالها عن سعادته بتوقيع مذكرة تفاهم مع جمعية الإمارات للمحامين والقانونيين، وأكد أن الجامعة تتقدم بخطى ثابتة نحو تعزيز مكانتها بين الجامعات المرموقة على المستوى المحلي و الإقليمي، وهذا بفضل التوجيهات والدعم والمتابعة المستمرة من صاحب السمو الشيخ محمد بن حمد الشرقي رئيس مجلس أمناء الجامعة

Participation of students of the University of Science and Technology of Fujairah to attend the Graduate Studies Conference at the United Arab Emirates University

Wednesday, Nov 09, 2022

Participation of students of the University of Science and Technology of Fujairah to attend the Graduate Studies Conference at the United Arab Emirates University

Within the framework of the university's keenness to provide university students with scientific and life skills and experiences, and to learn about practical experiences and build new partnerships and friendships, in a way that contributes to expanding their educational and knowledge outcome, and enabling them to refine their personalities and develop their abilities and skills, students of the Department of Sociology and Social Work participated in attending the postgraduate conference specializing in Master of Social Work for the College of Humanities and Social Sciences at the United Arab Emirates University, on Wednesday, November 09th, 2022 from 10 am to 2 pm, under the supervision of Dr. Asmaa Ahmed and Dr. Ramadan Ismail.

The conference discussed about 20 research issues presented by the participating researchers that focused

on issues related to a variety of areas including the family field, addiction, misuse of prescription drugs, human trafficking, problems of people with special needs, and the problems of patients with chronic diseases, as well as research on the roles of social workers and modern professional interventions in dealing with these issues.

This participation from the University of Science and Technology in Fujairah confirms its great interest in enhancing

the skills of scientific research and knowledge exchange and benefiting from the experiences of others in its students, where students met with a group of professors and students of the United Arab Emirates University with the aim of exchanging knowledge, information and ideas among themselves, and the participation confirms the university's interest in enhancing the prospects of cooperation with various institutions of society.

National Protection of Human Rights and the Rights of People of Determination

Thursday, Nov 10, 2022

The College of Law and the Counseling and Happiness Center in cooperation with The Students' Affairs at the University of Science and Technology of Fujairah (USTF) a workshop titled: National Protection of Human Rights and the Rights of People of Determination. The workshop was presented by Dr. Hawa Yousuf Ahmed Al-Ra'issy, Director of the Awareness Branch at the Department of Human Rights at the General Secretariat of His Highness Minister of Interior's office. The Workshop started on Thursday, Nov. 10, 2022 at 2:00 p.m. in the Main Conference Hall. The workshop was attended by a large group of faculty members, administrative staff, and students. Dr. Hawa Yousuf presented the concept of human rights, the UAE's international obligations for promoting and protecting human rights and

focused on the national protection of human rights within the legislative and institutional human rights protection frameworks. She also presented the rights of persons with disabilities (people of determination) and the Convention on the Rights of Persons with Disabilities (CRPD), the purpose of the convention, the term persons with disabilities, the promotion, protection and ensuring that persons with disabilities fully enjoy human rights and basic liberties on a basis of equality with non-disabled persons. She also presented the general obligations of states parties to the CRPD, reports of states parties, including the initial report; as each state party submits a comprehensive report to the Committee, through the UN Secretary General, about the measures taken to implement its obligations under the CRPD as well as the progress made in this regard within two years from

the date of coming into force for the state party. States parties also submit a periodic report every four years at least, and whenever is asked to submit a report by the Committee, the role of the Committee for the Rights of Persons with Disabilities, the UAE's obligations under the CRPD, and the UAE's national efforts in the promotion, protection, and empowerment of persons with disabilities. She also presented the efforts of the Ministry of Interior in the promotion and protection of the rights of persons with disabilities; its human rights strategy; and concluded the workshop by presenting the main achievements of the Ministry of Interior in the area of persons with disabilities (people of determination). Participants expressed that they benefited from the information presented at the workshop and the outstanding performance of the presenter.

USTF Visit Fujairah Islamic Scientific Academy

Monday, Nov 14, 2022

The Engineering and Technology Club of the University of Science and Technology of Fujairah organized a school visit to Fujairah Islamic Scientific Academy, where our college students presented a quick seminar on the topic of Sustainability under the supervision of Eng. Lamiaa Hussein and Eng. Momen Odeh.

This event focused on two main points, increasing the club's community engagement activities, and initiating the relationships between our region schools and the Engineering and Technology College.

Winning the First Place in the Student Scientific Research Competition at the third African Forum for Innovation and Technology for the current year

Tuesday, Nov 15, 2022

Cybersecurity students in the Departments of Information Technology and Electrical Engineering at the College of Engineering and Technology achieved first place in the competitions of the African Forum for Innovation and Technology held at Zayed University in Dubai this year. The students submitted a research paper entitled “Using Deep Learning for Detecting Cyber Web Attacks”. The vibe of the forum was full of competition between 56 teams from different Arab and African countries in various scientific research, innovation, and technology competitions including student scientific research competitions covering artificial intelligence, cybersecurity, the internet of things, sustainability topics, the production of technological projects, robotics, electronic games, and mobile applications competitions.

The research paper investigates the usage of artificial intelligence methods to identify intrusions by malicious

parties to deface website content and change the visual appearance of the intruded website. The approach uses to detect changes intended on the website

uses a deep learning model to train the convolutional neural network to detect defacement websites.

Ministry of Interior organized an awareness session for the employees of the University of Science and Technology of Fujairah

Wednesday, Nov 16, 2022

The Support Section and the Law Culture Respect Office at the Ministry of Interior organized an awareness session for the employees of the University of Science and Technology of Fujairah, with the aim of raising awareness of the laws, systems, and regulations that regulate sports in general and govern the game of football in particular. Inside sports stadiums, how to deal with players, administrative and technical devices, and the behaviors to be followed by everyone to maintain their safety, maintain security and order, riot control and respect the law.

The councils were witnessed by Major / Ahmed Al-Hashemi and Captain / Abdul Rahman Al-Yamahi from the Social Support Department in Fujairah Police, and Captain / Ghosoun Al-Dhaheri from the respect for the culture of law and Dr. Amin Dahmash a faculty member

at the College of Law at the University of Science and Technology of Fujairah, and a number of university employees, the local community and students.

During the majlis, which was presented by Mohammed Hassan Al-Basri and Masoud Al-Hammadi, students of the University of Science and Technology in Fujairah, international and UAE sports laws enshrined in the principles of the International Federation of Sport and Football (FIFA), which call for the preservation of the lives of players and fans, and to stand firm against those who try to distort the ethics and principles of football or violate sports norms based on moral discipline and the spirit of competition. Honest whether among the fans or the players.

Oron explained to the audience the necessity of fully believing that sports and football are fun in the first place and that they must comply with sports law and order in the most wonderful forms and situations, and accept the idea that football is a win and a loss.

Mr. Murhaf Khaznadar, Coordinator of the Alumni Office, Career Guidance and Events at the University of Science and Technology of Fujairah, thanked the Social Support Department at the Ministry of Interior for their great and

clear role in raising awareness of the importance of introducing the laws, systems, and regulations that regulate behavior related to sports in general and football in particular, through investing in the partnership between the university and the Social Support Department at the Ministry of Interior. In Fujairah Police, which includes the importance of organizing awareness lectures for university employees and the community as a whole.

Family bullying and its impact on family relationships Workshop

Thursday, Nov 17, 2022

Within the activities of the Department of Sociology and Social work that aimed to communicate with the local community, the Department of Sociology and Social work held a workshop entitled “Bullying and its impact on the student and family”, in cooperation with the Murbah Girls School. During this, Dr. Faisal Ibrahim Al-Matalka gave a lecture entitled “Bullying and its impact on the student and family”. In his intervention related to the same topic, Dr. Ramadan Ismail explained the role of the social counselor in the prevention and treatment of bullying”. From her side, Dr. Asmaa Ahmed explained the dangers of cyberbullying and how to prevent it. The workshop was held on Wednesday, November 16, 2020, from ten o'clock to twelve o'clock in the afternoon. The students presented a range of cultural and recreational activities, which won the admiration of all. The academic advisor Maryam Rabia and a group of teachers at the school welcomed everyone and praised this activity and the desire to consolidate relations and hold more lectures, workshops, and joint volunteer work. Dr. Faisal Matalka, the coordinator of the Sociology and Social Work Program, expressed his thanks and gratitude to the school administration and all the staff for the warm reception and hospitality and presented a certificate of thanks on behalf of the university to Ms. Safia Al Matroushi, the school principal, and to the academic advisor, Maryam Rabia, for their efforts in making the workshop a success.

11th International Envirocities Conference

Tuesday, Nov 22, 2022

The Department of Electrical Engineering and Renewable Energy at the University of Science and Technology in Fujairah under the supervision of Dr. Youmna Shaker, Eng. Momen Odeh, and Eng. Lamiaa Hussein, visited the 11th International Envirocities Conference under the theme “Sustainable, Smart and Resilient Cities Applications” in Fujairah, many leaders in smart and sustainable cities, as well as professionals and specialists in municipal work, attended.

The College of Engineering students reviewed several topics, including smart cities and artificial intelligence systems in critical areas such as renewable energy, and allowed students to exchange experiences in this field as well as become familiarized with the best global, regional, and local smart city practices.

Participation of the student Sarah Al Yammahi in the delegation of the United Arab Emirates participating in the United Nations Climate Change Conference 2022 held in the Arab Republic of Egypt

Sunday, Mar 27, 2022

As a coronation of the efforts of the student Sarah Mosabbah AlYammahi – 4th year student at College of Pharmacy and Health Sciences at the University of Science and Technology of Fujairah – in the field of environmental research, the student Sarah was chosen to represent the United Arab Emirates in the country's delegation at the United Nations Climate Change Conference 2022, which was held in Sharm El-Sheikh, Arab Republic of Egypt, from 6 until November 18, 2022. The conference is one of the most prominent events in the world, in the field of climate issues.

This representation came as a recognition of Sarah's continuous and successive efforts in her series of positive contributions to serve the sustainability endeavors adopted by the United Arab Emirates to confront the rapid changes the world is witnessing with regard to

environmental and climatic challenges, which are on the verge of turning into a global catastrophe.

Earlier in the last academic year, Sarah participated in the largest regional competition in the area of environmental preservation which was organized by the Emirates Environmental Group. Sarah, along with her team, won the first runner Award despite her young age. By the beginning of 2022, Sarah wanted to advance intellectually and cognitively in the area of sustainability, so she participated in the "Masdar Future Sustainability Leaders" program, which is sponsored by Masdar City and extends over a year, during which the student receives virtual and interactive courses that contribute to shaping their perception academically with regard to sustainable environmental research and production.

For her distinction in the program, she was nominated to represent the country in the United Nations Climate Change Conference.

It is worth mentioning that the convening of the conference this year comes with the participation of 197 countries represented by heads of state and government, international institutions and various countries. Many workshops were held during

the conference that dealt with the repercussions of many daily life paths on the climate and the extent of their interdependence in an attempt to devise creative ways that reduce the repercussions of climate change. It has reached a point that may be close to getting out of control and the steady rise in the prices currently borne by countries as a result of the effects of climate change.

During the conference, Sarah also participated as a keynote speaker in the panel discussions of the conference on empowering the role of youth to

target the accumulated problems of the repercussions of climate change, as they are the forces most able to influence awareness and public behavior. Her fellows in "Masdar Future Sustainability Leaders" also participated in the panel discussions.

Sarah's participation in the United Nations Conference on Climate Change and her acquainting of various opinions, ideas and abstracted facts from different regions around the globe is an important milestone in her journey toward the horizons of sustainability that she

aspires for. Sarah as a model of USTF student is strive to acquire the keys of science that enable her peers to merge their accumulated experiences with their academic studies in their fields of specialization to move towards new horizons to serve their country, their community and the world at large.

The College of Pharmacy and Health Sciences and the entire community of the University of Science and Technology of Fujairah congratulates Sarah for her achievements and wish her all the best in her future endeavors.

5th Combined Gulf Cancer Conference

Wednesday, Nov 23, 2022

Within the framework of an applied research collaboration with Prognica, a business specializing in smart systems applications in medical care, Roaa Osama from the College of Engineering and Technology participated in the 5th Combined Gulf Cancer Conference under the supervision of Dr. Haytham Elmessiry, which was hosted by friends of cancer patients association and supported by the Gulf Center for Cancer Control and Prevention. Our student presented a research paper titled "BI-RADs features-based breast lesion classification in ultrasound images" within the scientific discussions under the slogan "Youth in Actions".

Barbecue at Khor Dubai Park

Friday, Nov 25, 2022

As per College's keenness to promote extra-curricular activities and work to strengthen the bonds of cooperation between the members of its community, COPHS organized a recreational trip to Dubai Creek Park for college's students from different levels, aiming to create an atmosphere of fun and entertainment.

The trip started from Fujairah in the afternoon, and the trip included mini-stops to enjoy the rainy weather in the eastern region, and then continued the college's trip to Al Khor Park, which was full of visitors who wanted to enjoy the fresh air and natural scenery. The trip supervisors Tarek Shahin and Ibrahim Ali prepared the barbecue area with the help of the students who prepared the food before the day of the trip. After that, the students went for a walk in the garden and enjoyed the performances held there. The nice climate contributed to everyone's feeling of comfort. At the end of the day, everyone cooperated to wrap up equipment to get ready for the return trip,

after spending a day full of beautiful moments and good memories that contributed to their recreation and helped to continue the learning journey with seriousness and diligence.

14th Annual Conference on Undergraduate Research on Applied Computing (ZURC2022)

Thursday, Nov 24, 2022

Saudi Arabia, Oman, Egypt, and Jordan.

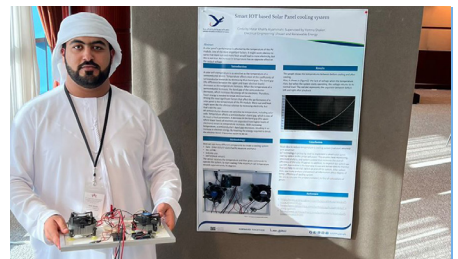

14th Annual Conference on Undergraduate Research on Applied Computing (ZURC2022)

Muhammad Nassif, a student in the Department of Electrical Engineering and Renewable Energy, won the “Best Poster Award” for the research submitted in the 14th Annual Conference on Undergraduate Research on Applied Computing at Zayed University under the supervision of Dr. Youmna Shaker.

Within the framework of the university's support for student participation in research conferences, the Engineering and Technology Club participated with a group of students from the Department of Electrical Engineering and Renewable Energy on two consecutive days by submitting research projects under the supervision of faculty members.

Students were able to exchange scientific experiences by participating in talks and seminars held by universities from different countries such as the UAE,

Participated Students: Raghed Ibrahim, Maram Hussam, Maryam Alnuaimi, Shamma Alhassani, Zain Azazi, Muhammad Nassif, Zein Elabdin, Abdulazeiz Alhefeiti, Abdallah Elshamy, and Matar Alyammahi.

NATIONAL DAY **اليوم الوطني**

UNITED ARAB EMIRATES الإمارات العربية المتحدة

University of Science and Technology of Fujairah celebrates the 51 anniversary of the National Day of the United Arab Emirates

Thursday, Nov 24, 2022

جامعة العلوم والتقنية في الفجيرة
تحتفل بالذكرى الحادية والخمسين لليوم
الوطني لدولة الإمارات العربية المتحدة

بحضور سمو الشيخ أحمد بن حمد بن
سيف الشرقي إحتفلت جامعة العلوم
والتقنية في الفجيرة بالذكرى الحادية
والخمسين لليوم الوطني لدولة الإمارات
العربية المتحدة. وقد جاءت احتفالات
الجامعة مميزة لما لذي دولة الامارات
من تراث وثقافة وفنون مينة لما تم
ويتم لبناء الدولة بالعمل الدؤوب لتحقيق
الرؤى المستقبلية لقيادة الدولة
الاستثنائية المرتكزة على مبادئ المحبة
والسلام والتسامح السامية لتتسع
لتحتوي دول كل العالم مما حقق الإنجازات
المتسارعة التي جعلت دولة الامارات
محط الأنظار ونموذجاً يحتذى بين الأمم
السابقة للرقى والتقدم

وإمتداداً لنهج التميز أشار الأستاذ الدكتور
علي أبو النور مدير الجامعة في كلمته
بمناسبة الإحتفالات إلى تميز الجامعة

للمشاركة للقمة العالمية للتغير المناخي
وبفوز فريق من طلبة الجامعة بالمركز
الأول بمسابقة الإستدامة بمعرض أكسبو
٢٠٢٠ وفوز فريق من طلبة الجامعة
بالمركز الأول بمسابقة البحوث العلمية
الطلابية بالملتقى الإقليمي الذي عقد
بديبي ٢٠٢٢ وفوز الطالبة عليا عبد الرحيم
بالمركز الأول بمؤتمر دوفات بديبي ٢٠٢٢
وبالمركز الأول بمسابقة تطبيقات الذكاء
الإصطناعي وبفوز الطالبة أمينة خلفان
بالمركز الأول على مستوى الدولة
بمسابقة المواطنة الرقمية وكذلك
فوزها بالمركز الأول على مستوى الدولة
والوطن العربي بمسابقة خارج الصندوق
وبفوز الطالبة شريفة فرحان بجائزة
المركز الثاني بمعرض الشارقة للكتاب
بروايتها إلى منى.

وقد جاءت فقرات إحتفالات الجامعة
والمعارض المصاحبة نتاجاً لفكر متقد
وجهد خلاق خالص من طلبة الجامعة
وأعضاء الهيئتين الأكاديمية والإدارية بها
عبروا بها عن رغبتهم الصادقة بالمشاركة
الفاعلة بإحتفالات اليوم الوطني وأسعدوا
بها منتسبي الجامعة وضيوفها بتلك
الذكرى المحببة لنا العزيزة على نفوسنا.

برامجها المعتمدة المحققة لإحتياجات
سوق العمل الحالية والمستقبلية
وببحوثها المؤثرة وبشراكتها المجتمعية
وببنيتها التحتية المحدثه القادرة على
تقديم الخدمات لمنتسبيها ولطلبتها
وفقاً لأفضل المعايير كما أشار لما أثبتته
فترة الجائحة الماضية من قدرة الجامعة
على مجابهة التحديات والاستمرار بالإنجاز
لتحقيق رؤيتها ورسالتها.

وأشار مدير الجامعة لما شهدته الفترة
الأخيرة من إنجازات للجامعة تمثلت في
اعتماد برنامج ماجستير إدارة الأعمال
بالجامعة كبرنامج وحيد للدراسات العليا
حالياً بإمارة الفجيرة واعتماد الجامعة
كمركز لاختبارات الإمارات القياسية الإمسات
وكذلك لإعتماد مركز تدريب دولي لجمعية
القلب الأمريكية بالجامعة. كما جاءت
إنجازات طلبة الجامعة كإثبات عملي على
تحقيق الجامعة لرسالتها ليكون لطلبتها
وخريجها ذوي عقول مبدعة ومستوى
العالي من المهارات المهنية
والمسؤولية الاجتماعية للمساهمة في
التنمية المستدامة للدولة والمنطقة
والعالم. وكمثال لإنجازات طلبة الجامعة
جاء ذكر اختيار الطالبة سارة اليماحي
ضمن الوفد الممثل لدولة الإمارات

16th Annual IEEE Student Day 2022

Saturday, Nov 26, 2022

16th Annual IEEE Student Day 2022

in the 16th Annual IEEE Student Day 2022 in the Higher Colleges of Technology (HCT) – Sharjah Women’s Campus under the supervision of Dr. Haytham Elmessiry and Dr. Yomna Shaker.

With the support of the Engineering and Technology Club, the students to part in two competitions in the categories of Community service and Cyber Security Challenge by Dubai Electronic Security Center (DESC).

Participated students are Wejdan Abdalla Alnaqbi, Shamma Ahmed Saeed, Rozan Alqadi, Maryam Ibrahim, Reem Zaher, Roaa Osama.

Dr. Mohammed Tarique and Engr. Rumana Islam Department of Electrical and Computer Engineering, participated in the International Conference on Electrical and Computing Technologies and Applica

Tuesday, Dec 06, 2022

Dr. Mohammed Tarique and Engr. Rumana Islam of the Department of Electrical and Computer Engineering, University of Science and Technology of Fujairah (USTF) participated in the International Conference on Electrical and Computing Technologies and Applications (ICECTA 2022) held at the American University of Ras Al Khaimah from November 23-24, 2022. The conference was organized by the American International University of Ras Al Khaimah and was officially sponsored by IEEE, Du, Huawei, and Software. Dr. Mohammed Tarique presented a research paper titled “Deep Learning Based Pathological Voice Detection Algorithm using Speech and Electroglottographic (EGG) Signals” and Engr. Rumana Islam presented a paper titled “Voice Features and Artificial Neural Network to Diagnose Parkinson’s Disease Patients”. The USTF has sponsored their participation in that event.

Field visit to the General Directorate of Residency and Foreigners Affairs in Fujairah

Thursday, Dec 08, 2022

Field visit to the General Directorate of Residency and Foreigners Affairs in Fujairah

Based on its vision of strengthening the relationship with government agencies in the country, activating the theoretical study in practical reality, and consolidating the rule of law, the College of Law at the University of Science and Technology in Fujairah organized on Thursday, 12/8/2022 AD, a field visit for college students to the General Administration of Residency and Foreigners Affairs under the supervision of Dr. Amin Dahmash, and they were received by Brigadier General Dr. Ahmed Muhammad Al-Sagiri, Executive Director of the General Directorate of Residency and Foreigners Affairs in Fujairah, who spoke about the new rules issued by the UAE legislator regarding the entry and residence of foreigners by Law No. 29 of 2021, and its executive regulations issued by Council of Ministers Resolution No. 65

of the year 2022; Whether in terms of the diversity of visas and residencies or in terms of simplifying their procedures, which aim to enhance the country's position and competitiveness and make it an ideal destination for living, working and investing, and attracting talents and competencies from all countries of the world, he referred to the amendments that the legislator made to the golden residency with the aim of facilitating the procedures for obtaining it and expanding its categories and benefits granted to the beneficiaries and members of their families, as well as the procedures that the administration takes in confronting violators of the rules of entry and residence, which are transparent and clear and based on the penalties specified in the law; He also explained to the students the recent amendments introduced by the Emirati legislator to the Nationality Law, especially those related to how a foreign woman married to a citizen acquires the nationality of the state, and the children of female citizens married to a foreigner; Then Captain Ibrahim Youssef AlAli, Head

of the Support Services Department, and Captain Rabih Mubarak Al-Mutairi, Head of the Entry Permits Department, toured the female students in the administration departments, and explained the facilities that are granted to clients in the reception department, clearing procedures, the digital services department and the methods of entering data automatically from the client and completing procedures at high speed. The modesty section reserved for women; the students expressed their admiration for the ease of the procedures, the elegance of the place and the sophistication of the treatment. Finally, Dr. Amin Dahmash thanked and praised His Excellency the Brigadier General Dr. Ahmed Al-Sagiri, Captain Ibrahim Yusuf Al Ali, Captain Rabih Mubarak Al-Mutairi, and all the employees of the General Directorate of Residency and Foreigners Affairs in Fujairah for these useful explanations and for their generosity. Hospitality and warm reception

Lecture entitled “Efforts of the UAE in Child Protection”

Thursday, Dec 08, 2022

The Department of Sociology and Social Work at the Faculty of Humanities and Sciences at the University of Science and Technology in Fujairah organized a lecture entitled “The UAE’s Efforts in Child Protection” in cooperation with the Emirates Society for Child Protection, on Thursday, December 8th, 2022, which was presented by Ms. Moza Al-Shoumi, Deputy Director of the Emirates Society for Child Protection, and was organized by Dr. Asmaa Ahmed, Assistant Professor of Social Work. The meeting was attended by the Deanship of Student Affairs at the university, students of the Department of Sociology and Social Work, and staff members of the department, where this lecture aimed to help students of the Department of Sociology and Social Work to link the theoretical aspect with the field reality and to see the field experiences in the field of child protection in the UAE society, where students study specialized courses on family and childhood, which aims to introduce the student to the efforts of the UAE in child protection. Moza Al-Shoumi dealt with the concept

of childhood recognized within the International Convention on the Rights of the Child, and also explained the difference between right, need and demand for children. It also reviewed the rights of the child through the concept of children’s rights, which emphasize his right to life, food, education, health, protection, preservation of his privacy, his right to play and stay with his family, and stressed the great efforts made by the State in protecting children from various forms of abuse, exploitation, abuse, and from any physical and psychological violence.

Moza Al Shoumi also presented the Child Rights Law in the UAE, known as the “Wadeema Law”, which was approved by the State in 2010 under the name of the child “Wadeema”, as the articles of this law contributed to protecting children and ensuring their basic rights to a decent life.

She stressed that Wadeema’s law clarifies that the rights and protection of the child are the responsibility of the family, school and society... referring to a number of articles contained in

Wadeema’s law that talk about what threatens the child and his physical, psychological, moral or mental integrity and calls for his right to protection.

Al-Shoumi also explained that Wadeema’s law stipulates the basic rights of the child, which are represented in his right to life and security for himself, the right from birth to a name that does not involve derogation or insult to his dignity or contrary to religious beliefs and custom, and that the child is registered immediately after birth in the birth register in accordance with the law, and the right to nationality in accordance with the provisions of the laws in force in the country, and the right to descent to his legal parents in accordance with the laws in force in the country, and the right to express His opinions freely according to his age and degree of maturity and in accordance with public order and morals.

Al-Shoumi also pointed out that the UAE law has guaranteed the child full protection and care whatever the circumstances, as among the basic articles on which the custody of the child

is based in the event of divorce or any kind of family disintegration is to oblige the custodian to meet a set of conditions that guarantee health, psychological, mental and criminal safety, in order to qualify him to obtain custody and care of the child.

Moza Al-Shoumi mentioned some of the parents' behaviors that violate the rights of the child without them feeling them, including destructive criticism and focusing on mistakes, cruelty and violence in dealing with him, continuous preoccupation with him, not giving him enough time to talk to him, mocking him, and the seriousness of the impact on the child's psyche.

Al-Shoumi also stressed that the neglect of the child, whether by parents or those covered by his care, and the lack of family communication with him constantly, and leaving him alone and the absence of family control about him results in the child being exposed to any behaviors that may make them vulnerable, including the risk of sexual abuse, and stressed not to give confidence and reassurance to anyone, regardless of the degree of his kinship, to be with children alone, or to put children in situations that may expose them to falling victims of any physical assaults.

Al-Shoumi presented a series of photos of different types of abuse, neglect and beatings that children may be exposed to, and many accidents that children may be exposed to as a result of parental neglect in the first place, including children falling from balconies and windows, drowning in swimming pools, domestic violence, suffocation in cars, and sexual abuse.

After that, the discussion was opened, where the students of the Department of Sociology and Social Work presented some questions related to the role of institutions in raising awareness of children's rights, and proactive efforts to protect children from any future risks, as Al-Shoumi stressed that all state institutions strive to adopt the best plans and programs that meet the present and future needs of the child, and stressed that it is one of the most prominent of these efforts is activating the networking strategy between the various institutions such as the Ministry of Interior, the Ministry of Community

Development, the Ministry of Education, and all parties concerned with family and child affairs at the state level.

Finally, Al-Shoumi concluded her meeting by emphasizing the role of the family in child care, and stressed that everyone is responsible for spreading the culture of awareness of children's rights in society for a better future for our children, and a safe and stable society, and at the end of the meeting, His Excellency Prof. Dr. Ali Abu Al-Nour, President of the University, presented the university's shield to Professor Moza Al-Shoumi in appreciation of her efforts.

“Green is a Lifestyle” Sustainability event.

Honoring the training preceptors at Fujairah Hospital Pharmacy

On the occasion of the completion of COPHS student’s Hospital Pharmacy Training in the facilities of Fujairah Hospital during the 1st semester of academic year 2022/2023, Her Excellency Prof. Sumia Sir Elkhatim honored the pharmacists in-charge of training the

students in the hospital, and they are Dr. Halima Al-Dhanhani, director of the hospital pharmacy, Dr. Maha Seif, in-charge of the in-patient pharmacy, and Dr. Aisha Al-Mutairi, in-charge of the outpatient pharmacy.

During the honoring, Prof. Sumia commended all the employees of the pharmacy, whose input contributed to enhancing the training of students, within the framework of the training

plan established in the college program to complete obtaining a bachelor’s degree in pharmacy. The pharmacy officials also accompanied Her Excellency on a tour of the inpatient pharmacy’s facilities, especially the automated dispensing machine of pharmaceutical preparations and other modern facilities that keep pace with the latest guides to pharmaceutical practice in the world.
