## Chancellor's Message

The University of Science and Technology of Fujairah (USTF) is dedicated to achieving excellence in teaching, research, and services to enable students to lead their lives and to make their university experience rich, fruitful and enjoyable.

USTF considers integrated interactions an essential priority to build a creative environment where initiatives and unconventional thinking are developed to maximize the benefits of humankind.

With its remarkable set of faculty, staff and accredited programs, USTF is going to continue using cutting-edge technology in a research-oriented manner to ensure quality education and to work together with external community towards allowing monumental impact in sustainable development of UAE and the region.

The strategic location of USTF makes it easily accessible from multiple locations and the sensational scenery of ocean and mountains in Fujairah provide a feel of openness reflecting what the university represents, an open platform for creativity, exploration and learning.

Prospective students are encouraged to pay a visit to our expanding campus, where they will be able to explore all the facilities available, to meet their future mentors and to become a part of our on-growing academic community.

I am honored to welcome you to USTF where the collective efforts of our faculty, staff, students, and greatest community will keep us moving forward together to create a bright, prosperous and promising future for us all.

# Dubai International Pharmaceuticals & Technologies Conference and Exhibition

Friday, Jan 13, 2023

The College of Pharmacy and Health Sciences participated in the Dubai International Pharmacy and Technology Conference and Exhibition (DUPHAT) on January 10-12, 2023, at the World Trade Center - Dubai.

The Dubai International Pharmacy and Technology Conference and Exhibition is the most prominent exhibition in the field of pharmacy in the Middle East and North Africa region. DUPHAT covers the pharmaceutical industry, over-the-counter drugs, retail products, and distribution within the pharmacy

network. DUPHAT envisages to be the most ideal platform for pharmacists, industry professionals, marketing professionals, academicians, scientists, students as well as associated healthcare professionals to interact and share their knowledge and expertise.

In the context of student contests at the university and college level, four student groups from the College of Pharmacy & Health Sciences took part in presenting their scientific research posters in DUPHAT-2023. Afra Hamdan, Nadya Saeed, Shamsa Salem, and Shouq Mohammed, who were in one of the four student groups and were supervised by

Prof. Yaser Alworafi, received the first prize for the best informative pharmacy student poster among all participating universities for their work on the topic of "PATIENT ADHERENCE TOWARDS MEDICATIONS AMONG PUBLICS IN UAE."

Prof. Sumia Sir Elkhatim, Acting Dean of the College of Pharmacy and Health Sciences – appreciated efforts made by college students and professors to represent the college and university in an optimal way and enrich the academic lives of students by engaging with their peers from college students in the entire Arab world during their period of participation in the conference activities.

# Abu Dhabi Sustainability Week 2023

Thursday, Jan 19, 2023

The College of Engineering at the University of Science and Technology in Fujairah visited the Abu Dhabi Sustainability Week “ADWS” event, under the supervision of Eng. Momen Odeh, Eng. Lamiaa Hussein, and Ms. Areej Hamdan on Wednesday, January 18, 2023.

Engineering students viewed the latest technologies and innovations in the energy, water, renewable energy, and environmental sectors.

ADSW is organized by Masdar, a leading clean energy organization in the UAE, is the opening international conference on sustainability for the year, and it aims to stimulate discussions and debates around the topic of climate change as the COP28 approaches.

ADSW is an event that includes a variety of components such as keynote speeches, panel discussions, displays, and more, designed to appeal to different audiences and address the current trends in the global sustainability agenda.

# International Conference of Pharmacy & Exhibition Event is UAE's one of the most functionally important Pharmaceutical & Healthcare exhibition

Monday, Jan 23, 2023

The International Conference of Pharmacy & Exhibition Event is UAE's one of the most functionally important Pharmaceutical & Healthcare exhibition. This year ICPM is happening in Dubai under the patronage of His Highness Sheikh Mohammed Bin Rashid Al Maktoum, Vice President and Prime Minister of the United Arab Emirates, and Ruler of the Emirate of Dubai.

The university participated in a platform aimed at introducing visitors to the scientific colleges and their role in the medical field, in addition to the rest of the university colleges.

The students of the Faculty of Dentistry and Pharmacy participated in four scientific posters that are in line with the objectives of the conference. The participation of the students, Shaikha alnoun aldhanhani, Raghad Saleh Basmaji, and Alya abulrahim addressed the issue of The Impact Of 4D Printing On Healthcare Transformation. The students Salsabeel Mohamed Ahmed, Sohair Mahmoud Moussa also addressed the issue of The Emerging Role of Organ-on-a-Chip in drug discovery

and development. The students Afra Hamdan, Nadya Saeed, and Shamsa Salem deal with Patient adherence to medications among the public in UAE. The students Maha Khamies Alhashmis, Fairous Ahmed Badr addressed an idea about health services & care for those who are in need by a novel idea: the PRUDENT- Thought for Future dentistry.

Members of the academic staff of the College of Dentistry also participated in being a part of the organizing committee of the students' Competition with Prof. Asmaa Harhash's participation and by giving lectures during the conference. The lectures were conducted by Prof. Aziza Aldarat, Dr. Ye Wint Oo and Dr Nabeel Kalluvalappil.

His Excellency Dr. Abdulla Khalfan Saeed Al Kindi mentioned that, ICPM was born where its vision is to connect people within the Healthcare Industry - Service Providers, Healthcare Professionals, Pharmaceutical Companies, & Local Government Authorities to have a long-lasting trustworthy business relationships.

During the conference, the poster of the participating students Salsabeel

Mohamed Ahmed, and Sohair Mahmoud Moussa won first place. The poster of Shaikha alnoun aldhanhani, Raghad Saleh Basmaji, and Alya abulrahim won second place and finally the poster of Afra Hamdan, Nadya Saeed, Shamsa Salem won the fifth place. Also, Pharmacy students Sarah Alyamahi, Alya Abdulrahim, and Shahad Maysarah won first place in the inter- universities competition after strong fighting against the other colleges for other participating universities.

His Excellency, Prof Ali Abo Elnour, Chancellor of the University of Science & Technology of Fujairah expressed his happiness and gratitude for the joint spirit of cooperation between the colleges and their role in highlighting the university and its active role in medical forums. He also praised the efforts of the students and their keenness to appear in the honorable image of the university.

His Excellency explained the importance and role of conferences in enriching the scientific outcome of students and opening horizons for them to look into the future and define the identity that they aspire to.

# Memorandum of Understanding between the University of Science and Technology of Fujairah and Prognica Innovation and Research Lab

Monday, Jan 23, 2023

Memorandum of Understanding between the University of Science and Technology of Fujairah and Prognica Innovation and Research Lab

The University of Science and Technology of Fujairah signed a memorandum of understanding with Prognica Innovation and Research Lab aimed at achieving cooperation and coordination in the field of research and innovation.

The memorandum was signed by His Excellency Prof. Ali Abu Al-Nour - chancellor of the university, representing the first party, and His Excellency Dr. Khaled Al-Sheikh - CEO of the company representing the second party, and the two parties stressed through the conclusion of this memorandum the need to activate local and international research and events.

# Open Day event at the Alshola schools in Sharjah on January 24, 2023

Tuesday, Jan 24, 2023

The University of Science and Technology of Fujairah (USTF) participated in an Open Day event at the Alshola schools in Sharjah on January 24, 2023. The event was designed to showcase the educational and research opportunities available at USTF to students and individuals.

The Open Day included a variety of interactive activities, such as lectures on different academic disciplines, and information sessions on the admission process and financial aid.

Representatives of USTF were available to answer questions and provide guidance to potential students and their families. The university also showcased its research and innovation projects and highlighted the advanced work being done by faculty members and students in fields such as engineering, computer science, renewable energy, dentistry and different programs

Dr. Ali Abu Al-Nour, University Chancellor, said: “We are proud to participate in the Open Day event at Alshola schools. It is a great

opportunity for us to communicate with the community and showcase the outstanding education and research opportunities available at our university. We are committed to providing our students with globally recognized education and preparing them for successful careers in the fields of their choice.”

Overall, the Open Day was a great success, providing valuable information and inspiration to students and families.

# University of Sciences and Technology Participates in Open University Day at Al Manara School in Sharjah

Wednesday, Feb 01, 2023

University of Sciences and Technology Participates in Open University Day at Al Manara School in Sharjah

Sharjah, UAE - On the occasion of Open University Day, the University of Sciences and Technology was proud to participate in the event held at Al Manara School in Sharjah. The event was designed to provide students with the opportunity to learn more about higher education and the various programs offered by the university.

During the event, representatives from the University of Sciences and Technology provided information on a wide range of academic programs, including engineering, computer science, and mathematics. The university's faculty and staff were on hand to answer questions and offer guidance to students as they explored their future academic options.

"We are thrilled to participate in Open University Day at Al Manara School in Sharjah," said the Dean of the University of Sciences and Technology. "This event is a great opportunity for us to connect with young people and provide them

with the information they need to make informed decisions about their education and career paths."

The University of Sciences and Technology is committed to providing students with the skills and knowledge necessary to succeed in the ever-changing global economy. The university offers a variety of programs designed to meet the needs of students from a wide range of backgrounds and academic interests.

The Open University Day event was well-attended by students from Al Manara School and other schools in the Sharjah area. The University of Sciences and Technology is looking forward to participating in similar events in the future and to helping young people achieve their academic and career goals.

## His Highness Sheikh Mohammed bin Hamad Al Sharqi, reviews the programs and plans of the University of Science and Technology in Fujairah

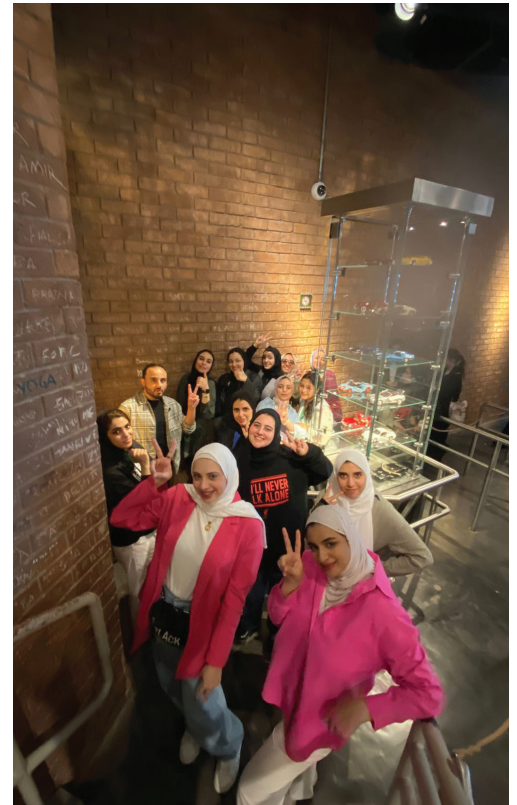

Monday, Feb 06, 2023

His Highness Sheikh Mohammed bin Hamad Al Sharqi, Crown Prince of Fujairah, recently presided over a meeting of the Board of Trustees of the University of Science and Technology in Fujairah. During the meeting, the Crown Prince emphasized the critical role higher education institutions play in supporting the country's educational sector. The statement comes in line with the directives of His Highness Sheikh Hamad bin Muhammad Al Sharqi, Member of the Supreme Council and Ruler of Fujairah, to improve the quality of academic work and stay current with changes in education.

The meeting was attended by Saeed Muhammad Al Raqbani, Special Advisor to His Highness the Ruler of Fujairah, Vice Chairman of the University's Board of Trustees, and members of the Council. During the meeting, academic plans and programs for the 2022-2023 academic year were presented, as well as educational initiatives aimed at enhancing the educational process and boosting student performance.

His Highness the Crown Prince of Fujairah praised the efforts of the Board of Trustees and members of the educational staff in supporting students and developing their skills through academic programs and innovative projects. He emphasized the importance of maintaining high standards in education to achieve the best results.

In conclusion, the meeting reinforced the commitment of the University of Science and Technology in Fujairah to providing high-quality education to students, and the Crown Prince's continued support for the development of the educational sector in the country.

## Trip to Motion Gate in Dubai Parks and Resorts

Wednesday, Feb 08, 2023

The Engineering and Technology Club arranged a Trip to Motion Gate in Dubai Parks and Resorts on Wednesday, February 28th, 2023, as part of the club's mission to not only teach, but entertain, and give the Engineering and Technology College students a full experience in their university life.

The Trip was arranged under the supervision of Eng. Lamia Hussein and Eng. Momen Odeh, and it involved very fun activities and games.

## Friends of Cancer Association and Human Resources Department Collaborate to Offer Pink Caravan Mobile Medical Clinic Services

Thursday, Feb 09, 2023

Friends of Cancer Association and Human Resources Department Collaborate to Offer Pink Caravan Mobile Medical Clinic Services

The Friends of Cancer Association and the Human Resources Department have joined forces to offer an essential service for people of all age groups. In

response to the circular regarding the association's members, the Pink Caravan mobile medical clinic will be providing their services to the community.

The Pink Caravan is renowned for its excellent care and support in the fight against cancer. Participants will receive help and care in a safe environment. The university community is encouraged to

participate and support this initiative by visiting the university's website to view photos of the event.

This partnership will make a significant difference in the fight against cancer, and we urge everyone to support this worthy cause. Let's join hands and work together to show our support for this initiative.

## Interior Design Department participation in UAE Innovate Exhibition at Fujairah Creative Hub

Monday, Feb 13, 2023

The interior design department in the College of Engineering at USTF was invited to attend the UAE Innovate Exhibition hosted by Al Fujairah Creative Hub - Ministry of Culture and Youth, where a group of interior design students from different batches presented a selection of their projects with the supervision of Dr. Ola Samaa, Ms Marah Aladdin and Ms. Areej Hamdan on Monday and Tuesday 13-14 Feb 2023. The exhibition was visited by H.H. Sheikh Abdullah Bin Hamad Saif Alsharqi and a group from the Congress from UNESCO, students from various schools, entrepreneurs, and other attendants involved in innovation and creativity. They all shared their interest and appreciation for the efforts, academic skills, and enthusiasm our students displayed in their work.

# Introduction to Clinical Pharmacist role for GEMS Winchester School – Fujairah students

Monday, Feb 13, 2023

Introduction to Clinical Pharmacist role for GEMS Winchester School – Fujairah students

As a part of Career Orientation Week at GEMS Winchester Fujairah, Ph. Tarek Shahin presented an orientation session about Clinical Pharmacy knowledge and practice.

The session was attended by Grade 12 and Grade 11 students in addition to school supervisors who participate actively during the session and the following discussions.

During the session, Tarek elaborated on the profound meaning of Pharmacy and Pharmacist in addition to overviewing the history of pharmacy career development and its roots. The session's focal point was about the Clinical Pharmacy profession and its role in the healthcare system improvement.

Tarek also elaborated on the comprehensive pharmaceutical care model as well as the responsibilities shouldered by a clinical pharmacist in

their healthcare facilities.

At the end of the session, the discussions were enriched by the broad knowledge of the school's students which helped them to get a closer overview of the pharmacy and a field of study and clinical pharmacist and a future career.

## Fulbright Scholarship Program introductory Session

Monday, Feb 13, 2023

Fulbright Scholarship Program introductory Session

The Training and Continuing Education Centre (TCEC) at the University of Science and Technology of Fujairah (USTF) had invited Fulbright Scholarship Program to brief USTF Emirati students about the program

The Fulbright Program is the U.S. government's flagship international educational and cultural exchange program, led by the U.S. government in partnership with 160 countries worldwide. The program enables students to build lasting connections between peoples of the United States and people around the world, building mutual understanding between nations, advancing knowledge across communities, and improving lives around the world. Here in the UAE, the Fulbright provides Emirati students and young professionals with the opportunity to pursue graduate-level studies in the U.S. and join a growing global network of talented Fulbrighters. The award includes full funding for tuition and other required fees.

The introductory session was attended by TCEC representatives, USTF's Emirati employees, Senior Students as well as Alumni from all of USTF's majors who are seeking to pursue their post-graduate studies in the United States of America.

## DEWA virtual tour

## Dibba Innovate” Exhibition

Thursday, Feb 16, 2023

The Electrical Engineering Department, in the Engineering and Technology College in the University of Science and Technology of Fujairah, participated in the “Dibba Innovate” Exhibition on Thursday, February 16th, 2023. The Department joined the exhibition with three projects that showcase the universities commitment to advancing innovation and research in renewable energy and sustainability.

The exhibitions included many industry leaders, universities, and even schools, that came together as part of Dibba’s municipality goals to fulfill UAE’s Vision for Innovation and a Sustainable Future.

## Barbecue event

Saturday, Feb 18, 2023

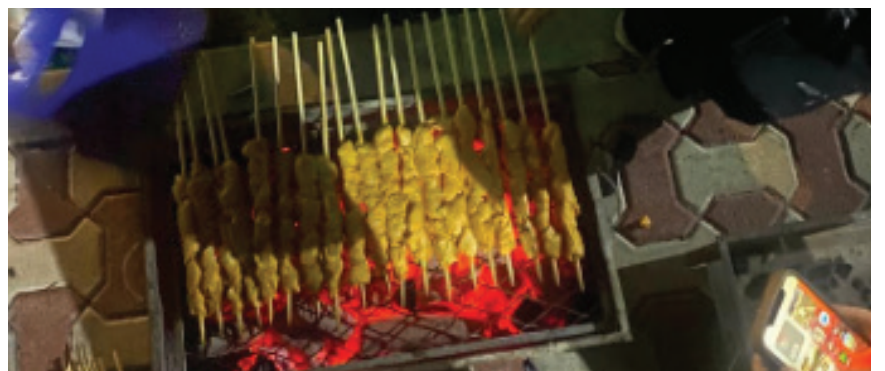

The Deanship of Student Affairs in collaboration with the Women's Student Council at the University of Science and Technology of Fujairah organized a barbecue event last Friday at the internal housing park. The event was attended by representatives of the deanship, faculty, and staff, as well as students and their families.

The event featured several activities that catered to a diverse audience, thanks to the great collaboration between the organizers and the participants. The barbecue segment was a highlight of the event, with the atmosphere set to suit the beautiful weather and family-friendly atmosphere. A variety of foods and cold drinks were also provided to accompany the event.

The "live cooking" segment added a special touch to the event, as participants were able to watch professional chefs prepare food and enjoy tasty meals under the watchful eyes of the audience.

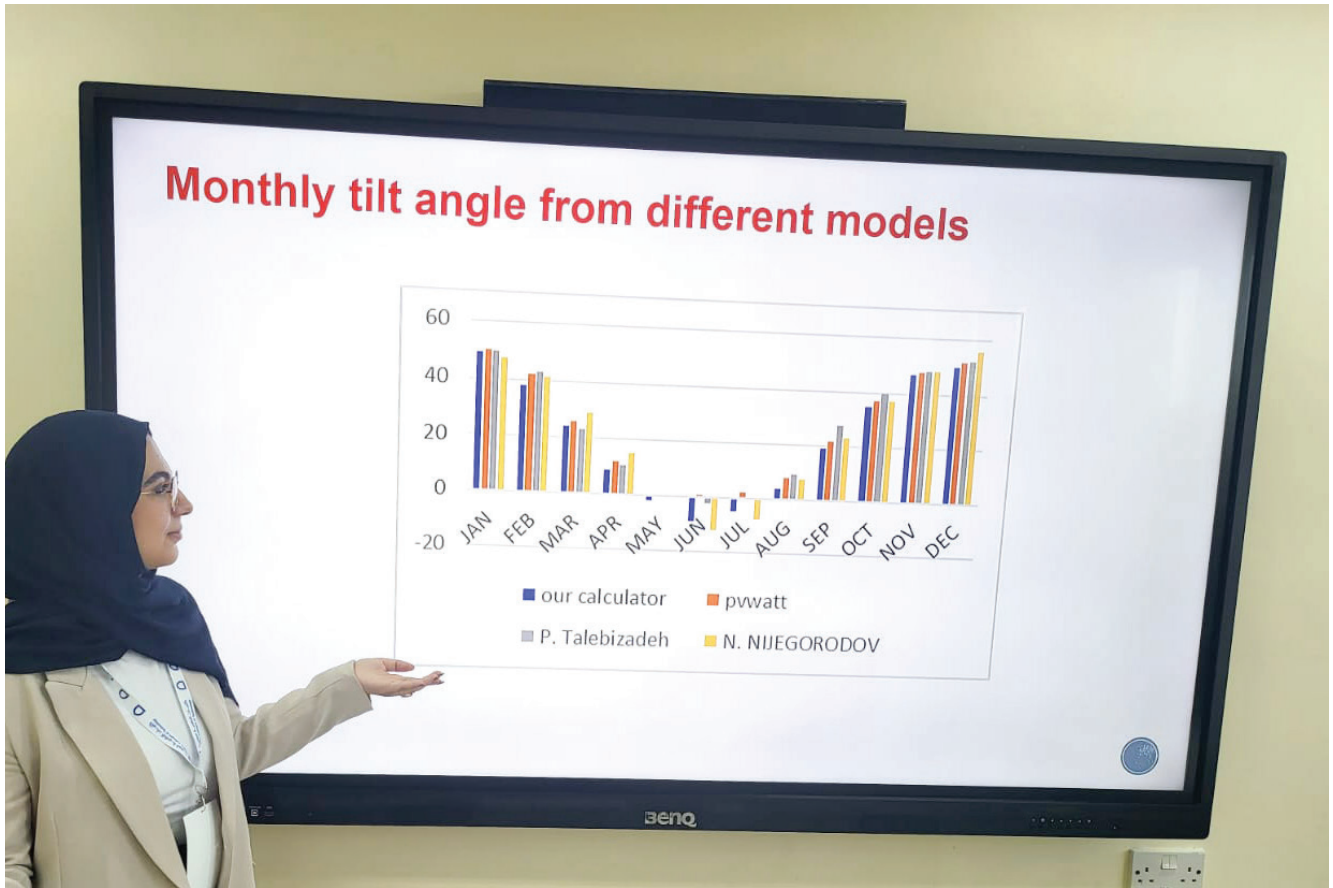

The attendees also enjoyed various entertainment segments and cultural competitions, with a variety of games that included many age groups and received significant participation from the attendees.

The event concluded with a word of thanks from the representatives of the deanship to all participants, emphasizing the importance of organizing such events to enhance social relationships among participants and to achieve enjoyment and fun. They wished all attendees good luck in their studies and personal lives.

# Advances in Science and Engineering Technology (ASET) Conference

Tuesday, Feb 21, 2023

Advances in Science and Engineering Technology (ASET) Conference  
 Within the framework of the university's attention to encourage scientific research and motivate the students to participate with research papers in scientific conferences. The research of the student, Raghad Melhem, was accepted under the supervision of Dr. Yomna Shaker from the Department of Electrical Engineering entitled "The Optimum Tilt Angle for Solar Panels in Fujairah" at the conference held at the Higher Colleges of Technology in Dubai.

The student discussed the research paper at the renewable and sustainable energy conference (ASET) that was held on the 20th of February 2023, at the Higher Colleges of Technology in Dubai, in the presence of professors and students participating in the conference.

# Jobs and Careers Fair held at Masafi School for the second and third cycle

Wednesday, Feb 22, 2023

The University of Science and Technology of Fujairah participated in the Jobs and Careers Fair held at Masafi School for the second and third cycle on Wednesday, February 22, 2023, under the title “My Future Destination Towards a Bright World”, which aims to guide students to the labor market and the university path according to their educational tendencies and desires, where the university presents a range of academic and administrative jobs and educational opportunities and provides a detailed explanation of university majors, and to introduce its initiatives in support of Emiratization, and to present opportunities for various work institutions to design training and qualification programs for their employees according to their needs in a way that supports continuous development and learning and enhances Emiratization plans in various labor sectors.

On this occasion, Prof. Dr. Ali Abu

Al-Nour, Director of the University of Science and Technology of Fujairah, explained that the university is keen to participate annually in various “employment” exhibitions in the country due to its importance in attracting national competencies and providing the opportunity for job seekers or new job opportunities to meet employers and institutions and take their job opportunities, which contributes to

promoting Emiratization at the level of the public and private sectors, which is a priority and strategic goal for the university, pointing out that The University of Science and Technology of Fujairah presents today a number of its initiatives and programs that contributed to attracting national cadres, raising Emiratization rates and supporting the educational field.

## The final ceremony of the World Youth Karate League

Sunday, Feb 26, 2023

A group of university members attended the final ceremony of the World Youth Karate League yesterday, February 26th, 2023 at 4 PM, at the Zayed Sports Complex, under the patronage and attendance of His Highness Sheikh Mohammed bin Hamad Al Sharqi, Crown Prince of Fujairah.

The World Youth Karate League is a prestigious international event that showcases the talent and skill of young karate athletes from around the world.

This event is an opportunity for athletes to demonstrate their mastery of karate and compete on a global stage.

The attendance of His Highness Sheikh Mohammed bin Hamad Al Sharqi at this event demonstrates his ongoing commitment to supporting sports and athletic events in the UAE. His Highness's presence at the event not only provided encouragement to the young athletes but also served as a source of motivation for the university members who attended.

The event was a great success,

and the university members who attended expressed their admiration for the participants and the high level of organization of the event. The university members also expressed their appreciation for His Highness's support and presence at the event.

The university members who attended the World Youth Karate League final ceremony are proud to have been a part of this significant event, and they look forward to attending more events in the future that showcase the talents and skills of young athletes.

# Ceremony UAE Hackathon 6.0m Final

Friday, Feb 24, 2023

Fujairah, UAE - The sixth edition of the UAE Hackathon, which was held at the University of Science and Technology of Fujairah (USTF), has come to a successful conclusion after two days of intense competition among 220 participants. The event was attended by students from various schools and universities, as well as entrepreneurs and small businesses.

Participants were divided into 54 competitive teams, with 29 teams representing different schools, 22 teams from universities, and three teams from small businesses and entrepreneurs. The teams competed in various fields, including information technology, artificial intelligence, the Internet of

Things, sustainability, healthcare, and more.

The competition resulted in the nomination of three school teams, including “Future Innovator”, “DXB Innovation Bus”, and “Falaero”, as well as several university teams, including “Katara”, “FSR”, and “Overdose”. Two startup teams were also nominated, namely “Alyah” and “Sustainable Solutions”.

During the closing ceremony of the event, the nominated teams were congratulated and commended for their innovative ideas and contributions to the hackathon. Participants expressed their happiness and pride in being part of such an important event that aims to

support and encourage innovation and creative thinking in society.

Prof. Ali Abouelnour, USTF chancellor, praised the level of the students and the promising ideas they presented, wishing them further progress and success in their lives. He also thanked the wise leadership of the United Arab Emirates, represented by the Telecommunications Regulatory Authority, for organizing the sixth edition of the UAE Hackathon.

The success of this event reflects the commitment of the UAE in supporting the development of innovation and entrepreneurship in the country, and we look forward to the next edition of the UAE Hackathon.

# College of Pharmacy have been awarded the prestigious Hamdan Bin Rashid Award for Distinguished Academic Performance in the category of Outstanding University

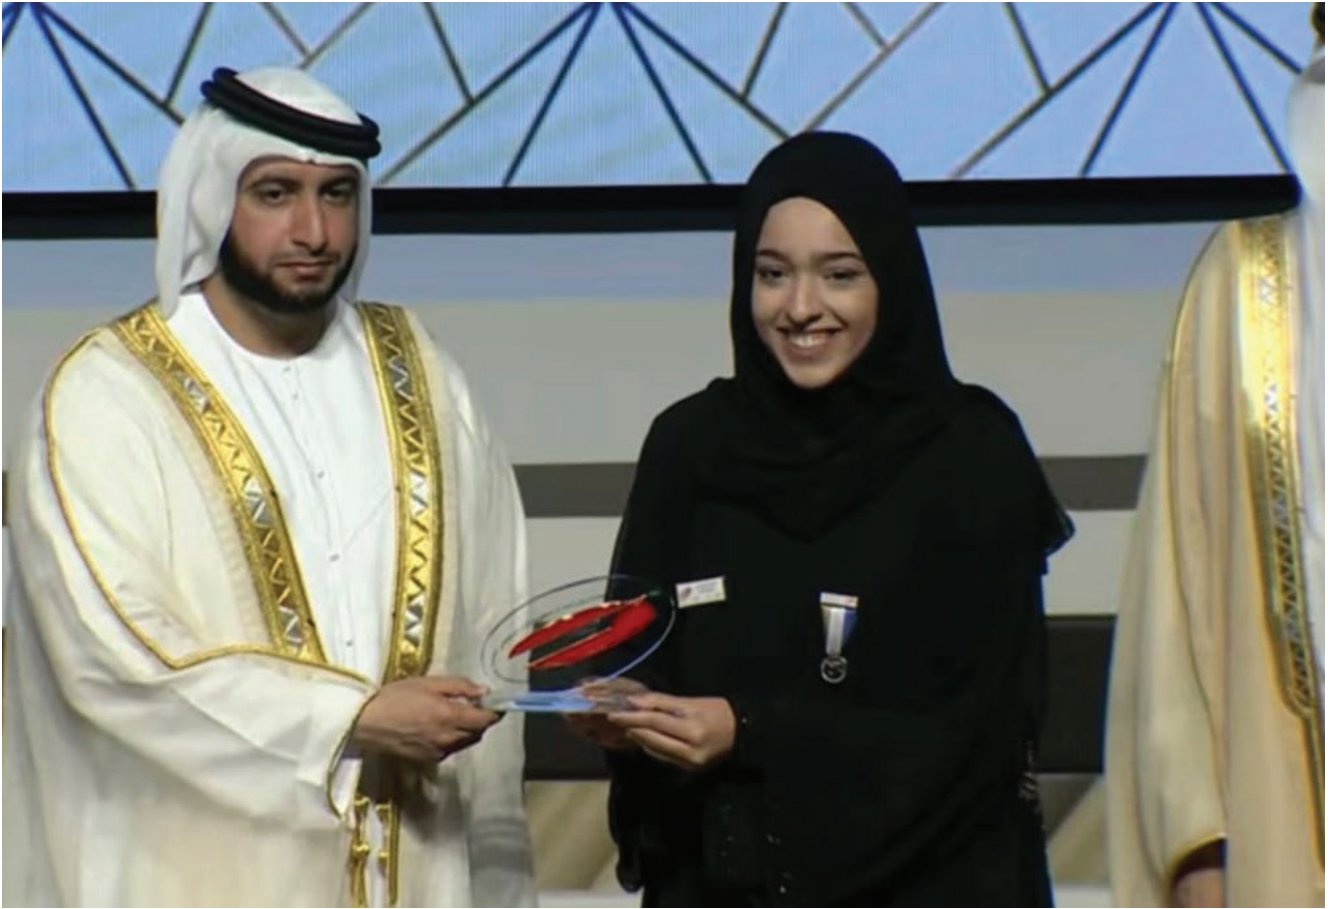

Tuesday, Feb 28, 2023

Two outstanding pharmacy students from the College of Pharmacy have been awarded the prestigious Hamdan Bin Rashid Award for Distinguished Academic Performance in the category of Outstanding University Student - Higher Education Competitions - 25th cycle under the theme "Innovating for the Future". The winners are Alya Abdulrahim Osman and Sara Al Yamahi.

The Hamdan Bin Rashid Award plays a crucial role in supporting educational excellence, and talented and innovative students, through various programs, projects, and continuous evaluations. The students compete for the award

with works from their past three years of study, and they are evaluated based on their winning in international or global competitions and multiple participation in student activities at the university and the community.

Alya Abdulrahim Osman expressed her happiness and gratitude for receiving the award, saying: "I am honored to have received this prestigious award.

It is a testament to my hard work and dedication to my studies. I would like to thank my family, my professors, and the College of Pharmacy for their unwavering support."

Sara Al Yamahi said: "I am thrilled to have been recognized with this award. It is an honor to be among the distinguished recipients of this award. I would like to thank my family, my

teachers, and the College of Pharmacy for their encouragement and guidance."

Prof. Sumia Sir Elkhatim, Dean of the College of Pharmacy, expressed her pride in the students' achievement, saying: "This is an exceptional achievement that reflects the quality of education and training that the College of Pharmacy provides to its students. We are proud of Alya Abdulrahim Osman and Sara Al Yamahi, and we congratulate them on their success. We are committed to continuing to provide the best possible learning environment and support for our students."

The Hamdan Bin Rashid Award for Distinguished Academic Performance is an annual award that recognizes academic excellence and supports students in their pursuit of knowledge and innovation. The award is open to students from all universities and colleges in the UAE. The award was established in honor of His Highness Sheikh Hamdan Bin Rashid Al Maktoum's dedication to education and his belief in the importance of supporting talented students.

# College of Dentistry Faculty Participates in Dental Conference in RAS Al Khaima

Tuesday, Feb 28, 2023

College of Dentistry Faculty Participates in Dental Conference in RAS Al Khaima

RAS Al Khaima, UAE

The College of Dentistry at University of Science and Technology of Fujairah was well represented at the recent dental conference held in RAS Al Khaima. Four faculty members presented lectures on the latest advances in dental practice

and patient safety, while four students showcased their research through poster presentations.

The conference, which brought together dental professionals and experts from around the world, provided a platform for sharing knowledge, discussing emerging trends, and networking with peers. The College of Dentistry's participation at the conference demonstrated the institution's commitment to staying at the forefront of dental education and practice.

Prof. Tamer Abdelbari Hassan, Dean of the College of Dentistry, expressed his satisfaction at the quality of the presentations made by the faculty members, and the depth of the research conducted by the students. "We are proud to have participated in this prestigious conference and to have been able to showcase the expertise and innovation of our faculty and students. Our participation has further strengthened our commitment to providing the best dental education and training to our students."

The College of Dentistry is dedicated to promoting excellence in dental education, research and practice, and has consistently been at the forefront of cutting-edge advances in dental care. The College's participation in the dental conference in RAS Al Khaima underscores its commitment to maintaining the highest standards of dental education and practice. # successful scientific day for senior dental students and interns on the latest rotary endodontic system.

Thursday, Mar 02, 2023

The College of Dentistry, in collaboration with Dubai Medical Equipment, organized a successful scientific day for senior dental students and interns on the latest rotary endodontic system. The event was held on March 2nd, 2023, and was aimed at enhancing the students' knowledge and skills in the field of dentistry.

The scientific day included a lecture and hands-on workshop on the latest rotary endodontic system. Dr. Ghada Bassil, the general manager of FKG Dentaire, was the guest speaker, and she shared her expertise and experience with the attendees. Dr. Bassil's lecture covered the benefits and applications of the latest rotary endodontic system, while the hands-on workshop gave the students a chance to try out the equipment themselves.

The event was a great success, and the students were grateful for the opportunity to learn from Dr. Bassil and gain hands-on experience with the latest technology. The collaboration between The College of Dentistry and Dubai Medical Equipment was crucial in making the event possible, and both organizations are looking forward to

future collaborations to advance the field of dentistry in the UAE.

"We are delighted with the success of the scientific day, and we are proud to have collaborated with Dubai Medical Equipment and Dr. Bassil to bring this event to our students," said prof. Tamer Abd Albari, Dean of The College of Dentistry. "It is essential for our students to keep up-to-date with the latest technology and techniques in dentistry, and we are committed to providing them with the best educational opportunities."

About The College of Dentistry:  
The College of Dentistry is a leading

dental education institution in the UAE, committed to providing quality education and research in the field of dentistry. The College is dedicated to preparing the next generation of dental professionals to meet the evolving needs of the UAE's healthcare system.

About Dubai Medical Equipment:  
Dubai Medical Equipment is a leading provider of medical and dental equipment in the UAE. The company is committed to providing the latest technology and equipment to healthcare professionals to help them deliver the best possible care to their patients.

# Innovation Land Exhibition

Sunday, Mar 05, 2023

Senior students from the College of Pharmacy and Health Sciences actively participated in the “Innovation Land Exhibition” organized by the Fujairah Natural Resources Authority, which took place at the Innovation Lab in the Emirates of Fujairah from February 24th to 26th, 2023.

The students’ involvement was focused on utilizing modern technologies to improve the healthcare sector from a pharmaceutical standpoint, with the goal of improving patients’ quality of life.

During the opening ceremony, students Sarah Al Yammahi and Alya Othman shared their experiences and journeys in the fields of healthcare innovation and sustainability.

Sarah told her story, from winning the first Hackathon award in 2021 to representing her country at COP27 in Egypt.

Alya discussed her journey as the first award winner in two consecutive

editions of the DUPHAT international conference, as well as her most recent projects incorporating 4D pharmaceutical printing and metaverse technologies.

HE Eng. Mohamed Saif Al Afkham, Director General of Fujairah Municipality, visited the university’s booth in the exhibition and praised the students’ projects. HE Al Afkham also encouraged them to utilize the new AI technologies in serving patients’ best interests.

Overall, the students’ participation in the exhibition showcased their knowledge and skills in utilizing modern technologies to enhance the healthcare sector and their potential to contribute significantly to the industry.

# Fujairah Hospital Innovation exhibition titled “Innovating with a sustainable vision”

Sunday, Mar 05, 2023

Fujairah Hospital Innovation exhibition titled “Innovating with a sustainable vision”

The Clinical Pharmacy Training Trainees from the College of Pharmacy and Health Sciences at USTF actively participated in the Innovation Exhibition organized by Fujairah Hospital on February 21, 2023. The exhibition’s theme was “Innovating with a Sustainable Vision”.

During the brainstorming sessions, the trainees shared their experiences gained from notable participation in various reputable conferences, exhibitions, and competitions. Their conclusions were prominently featured in the closing statement of the innovation exhibition.

As a token of appreciation for their exceptional contribution, the participating trainees were presented with certificates of recognition.

# Chess championship at the University of Science and Technology of Fujairah.

Thursday, Mar 09, 2023

A distinguished conclusion to the chess championship at the University of Science and Technology of Fujairah. The university, in cooperation with the Fujairah Chess and Culture Club, organized the tournament with the participation of 30 players from the university and the chess club. The players demonstrated good and strong performances throughout the tournament from March 7th to March 8th, 2023. During the tournament, player Mohammed Yousuf Al Ali won first place, followed by player Anas Al Mansouri in second place, and player Hamid Abdullah Al Zuhmi in third place.

Dr. Samah Khamis, Director of Admissions and Registration at the university, Dr. Sayed Abdul Rahman, Head of the Community Service Committee, along with Jassim Hikl Al Balushi, Director of Public Relations at the Fujairah Chess and Culture Club, and Ramzi Ghuneim, Sports Supervisor, crowned the winners of the first places.

Professor Dr. Ali Abou Alnour, the

university's director, expressed his happiness with the mental abilities demonstrated by the participants in the tournament, describing it as contributing to creating a good competitive atmosphere between the student community and the local community. He confirmed the university's great

interest in sports as an important part of the educational system by organizing many events and tournaments and providing a suitable environment for academic excellence. He thanked the Fujairah Chess and Culture Club and the organizing committee, led by the university's sports supervisor, Ramzi Ghneim, and congratulated the winners.

## two teams from the College of Engineering and Technology have made it to the top 10 of the UAE Hackathon 6.0!

Tuesday, Mar 07, 2023

We are thrilled to announce that two teams from the College of Engineering and Technology have made it to the top 10 of the UAE Hackathon 6.0! We congratulate these brilliant minds on their exceptional achievement in winning in the Top 10 of the competition. The first team was led by the student Zein Elabdin Ahmed Zain Elabdin from the Electrical Engineering Department, and the second group consisted of 5 students from Information Technology Department, Mohamed Abouelfetouh, Reim Mohamed Zaher, Shouq Shahab Mohamed, Maryam Ebraheim Aldhanhani and Rozan Alkady.

This is a testament to the hard work, dedication, and innovative thinking of our students, and we are proud of their outstanding performance. Congratulations again to the winning teams!

# SolarCast App Engineering Team Wins Third Place in the 2023 University of Al Ain Sustainability in Engineering Competition

Tuesday, Mar 14, 2023

SolarCast App Engineering Team Wins Third Place in the 2023 University of Al Ain Sustainability in Engineering Competition

Al Ain, UAE - The University of Al Ain recently held its annual Sustainability in Engineering Competition, providing an excellent opportunity for students to showcase their skills and knowledge in the field of renewable energy. We are pleased to announce that the SolarCast App engineering team from the Department of Electrical and Renewable Energy Engineering has won third place in the competition. The team was composed of Raghad Mulham, Maram Hamoud, and Mariam Al Naemi.

Numerous other students participated in the event, presenting their projects

such as “Solar Powered Wireless Power Transfer” by Zain Alabdeen Ahmed, Abdulaziz Khamees, and Hamdan Hamad, as well as “Implementation of efficient small size half bridge inverter using EPC9078” by Mohammed Ayman, Matar Khalifa, and Mohammed lyad.

We congratulate all the participants for their efforts and dedication toward sustainability and innovation.

The University of Al Ain’s Sustainability in Engineering Competition was an excellent opportunity for students to demonstrate their knowledge and skills in the field of renewable energy. We commend the SolarCast App engineering team for their achievement and for representing the university with excellence. We wish them continued success in their future endeavors.

## The College of Pharmacy & Health Sciences (COPHS) participated in the First International Conference for Pharmacy Students (ICPS-1) held at the University of Sharjah

Monday, Mar 20, 2023

The College of Pharmacy & Health Sciences (COPHS) participated in the First International Conference for Pharmacy Students (ICPS-1) held at the University of Sharjah, UAE. The conference was conducted under the theme of “Promoting Sustainability in Pharmacy,” with an aim to explore new avenues in pharmacy sciences and practice through the works and research of students in the fields of pharmaceutical science and pharmacy practice.

Students from COPHS presented five scientific posters that aligned with the conference objectives. During

the conference, Sohair Mahmoud Moussa presented a poster titled “Self-medications with antibiotics in Fujairah, UAE,” supervised by Prof. Yaser Al-Worafi. The poster won the First Place Award in the Student Scientific Poster category among the nine participating Colleges of Pharmacy in the UAE.

The College of Pharmacy was also honored for its participation in the event. Her Excellency, Prof. Sumia Sir Elkhatim, Dean of the College of Pharmacy and Health Sciences, expressed her gratitude and happiness towards the college students for their representation at the conference. She also wished them continued success in the future.

# University of Science and Technology of Fujairah (Celebrates World Social Work)

Monday, Mar 20, 2023

University of Science and Technology of Fujairah Celebrates World Social Work Day

The Department of Sociology and Social Work, in collaboration with the Community Service Committee and the Extracurricular Activities Department at the University of Science and Technology of Fujairah, organized an event to celebrate World Social Work Day. The theme of the event was “Respecting Diversity through Joint Social Work.”

The event was held on Monday, March 20, 2023, at the University of Science and Technology of Fujairah, and was attended by Sheikh Saed bin Suroor Al Sharqi, Chairman of the Board of Directors of the Fujairah Chamber of Commerce and Industry, Ahmed Sultan Al Hantoubi, Vice Chairman of the Chamber, Dr. Ali Abu Alnour, University Director, University Deputy Directors, academic and administrative staff, leaders from various institutions, social workers, and students.

The purpose of the event was to raise

awareness of the value of social work as a profession and to honor the hard work and prominent role of social workers in serving communities. The event was also an opportunity for academics, social work professionals, and members of different institutions to discuss important issues related to the future of the profession.

The event featured several speakers who emphasized the importance of social work and addressed important issues related to the future of the profession. Dr. Amal Bin Garsh from the Emirates Health Services Foundation delivered a lecture on “Empowering Social Workers in Medical Institutions.” She spoke about the professional skills required for social workers in the medical field and the role of social work in connecting patients with community institutions.

University of Science and Technology of Fujairah’s celebration of World Social Workday was a successful event that highlighted the importance of social work and recognized the hard work and dedication of social workers in serving their communities

## the student, Raghad Melhem, made a great achievement

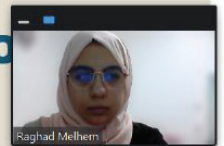

Wednesday, May 03, 2023

Within the framework of the university's encouragement of scientific research and within the activity of the Engineering and Technology Club, the student, Raghad Melhem, made a great achievement, represented in publishing a research paper in a scientific journal with a Q1 classification within the Scopus database, entitled "Optimal tilt angle and Solar Radiation for photovoltaic modules in the Arab Gulf Countries", under the supervision of Dr. Yomna Shaker.... This distinction and unprecedented achievement is an important step taken by the College of Engineering and Technology in supporting outstanding students in the field of scientific research..... All wishes to the student Raghad Melhem for excellence and achieving more success in her scientific career

## SUC Innovation Competition 2023

### Motivati

- Historic conversion of energy systems based on fossil fuels to those powered by renewable energy.
- The most popular type is solar energy with a PV device.
- The biggest challenge is the efficiency of PV.
- To catch the sunlight and make it perpendicular to the PV surface.

Thursday, May 18, 2023

We are thrilled to announce that Raghad Melhem, a student from the College of Engineering, won third place in the SUC Innovation Competition 2023 hosted by Skyline University College, which took place on the 18th of May, with her project "Optimum Tilt Angle and Solar Radiation of Photovoltaic Modules for Gulf Collaboration Council Countries" under the supervision of Dr. Youmna Shaker. We wish her continued success in her future endeavors and look forward to witnessing her continued growth and accomplishments.

## The University of Science and Technology of Fujairah team achieved second place in the Ramadan Challenge Teams competition organized by the Ministry of Culture and Youth Fujairah Creative Centre

Wednesday, Mar 29, 2023

The University of Science and Technology of Fujairah team achieved second place in the Ramadan Challenge Teams competition organized by the Ministry of Culture and Youth Fujairah Creative Centre among employees of federal and local entities in Fujairah city, which was organized on Thursday, March 30, 2023, at Fujairah Creative Centre.

Where the university participated with

a team It consists of three candidates from its affiliates, They were nominated by "Dr. El-Sayed Mohamed," Chairman of the University's Curricular and Extra-curricular Activities Committee and they are "Dr. Nasr El-Din Abo sadek", "Mr. Marhaf Khazndar" and "Mr. Safia Othman", and after intense competition and cultural, historical, and Ramadan questions, the team of the General Authority of Islamic Affairs and Endowments was able to achieve first place Followed by the University of

Science and Technology of Fujairah team second. The Director of Fujairah Creative Centre, H.E. Wedad Ahmed Al-Hamoudi, honored the winners and appreciated their participation in these exciting in Ramadan competitions, she added that such competitions encourage reading and deduction and contribute to enriching information in various aspects. At the end of the competition, joy and pleasure prevailed among the participants and congratulations were exchanged between the competitors.

# 10th Undergraduate Research Competition

Thursday, May 18, 2023

We are thrilled to announce that our exceptional engineering students, Muhammed Nassif, Matar Khalifa Alyammahi, and Muhammed Eyad from the Electrical Engineering program, have achieved a remarkable accomplishment. Their project has been accepted and selected to participate in the 10th Undergraduate Research Competition (URC) held at Abu Dhabi University. Under the guidance and supervision of Dr. Youmna Shaker, on Thursday, May 18, 2023. This international competition, which includes the MENA and GCC regions, aims to promote a scientific research culture among undergraduate students.

## The Engineering and Technology Club recently held a successful Honored Ceremony

Thursday, May 25, 2023

The Engineering and Technology Club recently held a successful Honored Ceremony, recognizing and celebrating the exceptional achievements of our beloved students in the College of Engineering and Technology. We wanted to acknowledge and appreciate the outstanding work that our students have accomplished over the 2022–2023 academic year.

We want to express our sincere gratitude to all the faculty members and students. Your successes have made us incredibly proud, and we hope to see even more success in the future.

# University of Science and Technology of Fujairah hosted the first USTF Sustainability Forum 2023 (High School Sustainability Competition - HSSC).

Thursday, May 18, 2023

University of Science and Technology of Fujairah hosted the first USTF Sustainability Forum 2023 (High School Sustainability Competition - HSSC).

The event hosted 15 schools that participated with 70 different teams and a total of 200 students. The teams and students joined the competition with their projects and ideas that showcase the innovation and creativity of high school student and their schools and their dedication for to participating in the creation of a Sustainable future for the UAE.

During the Event, 4 Teams won the grand prizes which are: Best Prototype for the team “Smart Farm” from Manarat Al Sharjah School. Best Poster for Team “Sustainable Package Material” from Gems Winchester Fujairah. The Second Place for Best Poster for Team “3D Printing with Block Chain Technology” from Our Own English High School Fujairah. The Third Place for Best Poster for Team “Mihran’s” from Eminence Private School.

In addition, 13 teams won in 6 other categories, and they are 1st Place in Originality for the team “Less Pollution” from the Fujairah Islamic Scientific Academy. The 2nd Place in Originality

for the team “Hydro Wind Energy Sustainability” from Gems Winchester Fujairah. The 1st Place in Project Design for team “Turathuna” from Al Dhahra Girls School. The 2nd Place in Project Design for the team “Eco Sustainability” from Saif Bin Hamad Alsharqi School. The 1st Place in Methodology for the team “Aisha’s” from Eminence Private School. The 2nd Place in Methodology for “Fujairah 2.0: A sustainable city for a thriving future” from Diyar Private Academy. The 1st Place in Presentation for team “Sustainability Creators” from Saif Bin Hamad Alsharqi School. The 2nd Place in Presentation for team “Water Sustainability and Conservation” from Gems Winchester Fujairah. The 3rd place in Presentation for team “Aen Amaqdes Alakhder” from Emirates Private School. The 1st Place in Contribution to Sustainability went to team “Sustainable City” from Our Own English High School Fujairah. The 2nd Place in Contribution to Sustainability for “Sustainability Creators” from Saif Bin Hamad Alsharqi School. The 1st Place in Applicability for team “Phishing Attacks” from Al Shola Private School – Ajman. And Finally, the 2nd Place in Applicability went to “EcoSphere” from Al Shola American School.

## Signing of Memorandum of Understanding Strengthens Collaboration between College of Dentistry, University of Science and Technology of Fujairah, and College of Dentistry, Suez Canal University

Wednesday, May 31, 2023

The College of Dentistry at the University of Science and Technology of Fujairah (USTF), represented by the esteemed Dean, Prof. Tamer Abdel Bari, has entered into a significant cooperation agreement with the College of Dentistry at Suez Canal University in Egypt, represented by College Dean, Prof. Dalia Fayyad. This momentous occasion marks a major milestone in fostering collaboration and advancing dental education between the two esteemed institutions.

The memorandum of understanding (MoU) encompasses numerous privileges and opportunities for both colleges, aiming to strengthen academic ties and promote knowledge exchange. Key aspects of the agreement include collaboration on scientific projects, student exchange programs, participation in clubs and camps, and the exchange of academic experiences among faculty members.

One of the notable benefits outlined in the MoU is the provision of a unique privilege for USTF dental graduates, enabling them to pursue postgraduate programs at Suez Canal University, which boasts distinguished regional and international rankings.

The signing ceremony took place in the presence of Prof. Zein Elabdine Rizk, Vice Chancellor for Academic Affairs, who commended the collaboration as a significant step towards enhancing the dental education landscape in both institutions. Faculty members from both colleges were also in attendance, emphasizing the collective commitment to academic excellence and the pursuit of mutual growth.

Prof. Tamer Abdel Bari expressed his enthusiasm about the cooperation agreement, highlighting the potential for joint research endeavors, enhanced student experiences, and the exchange of best practices in dental education. He affirmed the college's dedication to producing highly skilled dental professionals capable of meeting the evolving demands of the industry.

Prof. Dalia Fayyad echoed similar sentiments, emphasizing the importance of global partnerships in fostering a comprehensive and well-rounded dental education. She expressed her optimism about the fruitful collaboration, which will undoubtedly create avenues for academic growth and contribute to the advancement of dental science.

This collaboration represents a significant stride forward in dental

education, underlining the commitment of both institutions to academic excellence, innovation, and the pursuit of knowledge in the field of dentistry. It is expected to lay a strong foundation for future joint initiatives, research collaborations, and the exchange of expertise between the College of Dentistry at USTF and Suez Canal University.

About College of Dentistry, University of Science and Technology of Fujairah: The College of Dentistry at the University of Science and Technology of Fujairah is a leading institution dedicated to delivering quality dental education, research, and patient care. With state-of-the-art facilities and a distinguished faculty, the college aims to produce highly skilled dental professionals capable of addressing the oral healthcare needs of the community.

About College of Dentistry, Suez Canal University: The College of Dentistry at Suez Canal University is renowned for its excellence in dental education, research, and community service. With a commitment to advancing the dental profession and improving oral health, the college has established itself as a leading institution in the region.

## “Mohammed Al-Sharqi attends the graduation ceremony of the 2023 Sustainability batch from the University of Science and Technology in Fujairah

Wednesday, Jun 07, 2023

“Mohammed Al-Sharqi attends the graduation ceremony of the 2023 Sustainability batch from the University of Science and Technology in Fujairah.

His Highness Sheikh Mohammed bin Hamad Al-Sharqi, Crown Prince of Fujairah, emphasized the value of higher education and its significance in advanced societies that prioritize knowledge and education. He highlighted the role of universities in supporting the educational process and providing an effective workforce to serve humanity and benefit the present and future.

His Highness attended the graduation ceremony of 225 male and female students from various scientific disciplines, known as the ‘Sustainability Class of 2023,’ at the University of Science and Technology in Fujairah. The ceremony was also attended by His Highness Sheikh Dr. Rashid bin Hamad Al-Sharqi, President of the Fujairah Authority for Culture and Media, Sheikh Mohammed bin Hamad bin Saif Al-Sharqi, Director-General of the Fujairah Electronic Government Department,

Sheikh Abdullah bin Hamad bin Saif Al-Sharqi, and His Excellency Saeed Mohammed Al-Raqbani, Special Advisor to the Ruler of Fujairah and Vice-Chairman of the University’s Board of Trustees.

His Highness acknowledged the scientific progress witnessed in the university institutions in the Emirate of Fujairah. This progress stems from the vision and directives of His Highness Sheikh Hamad bin Mohammed Al-Sharqi, a member of the Supreme Council and Ruler of Fujairah, in line with the requirements of academic programs and their outputs, which enhance comprehensive development pillars in the country and elevate the level of higher education institutions, placing them among the world’s universities.

His Highness handed out certificates to the graduates during the ceremony held at the Fujairah Creative Centre Theatre, congratulating them and their families on this honorable academic achievement. He also emphasized the importance of investing in their personal and academic knowledge and urged them to continue acquiring and

developing it to serve the nation and achieve the highest levels of excellence and leadership in their future careers.

Dr. Ali Abu Al-Nour, Director of the University of Science and Technology in Fujairah, delivered a speech on behalf of the university during the graduation ceremony. He stated that the university is working to enhance its participation and presence in global scientific research initiatives and obtain academic accreditation for various scientific disciplines, such as artificial intelligence, in accordance with the current and future job market demands. He affirmed the university’s commitment to excellence standards in research projects, partnerships, and educational services.

Abdullah Rashid Al-Yamahi, a graduate of the College of Humanities and Sciences, delivered the graduate’s speech on behalf of his fellow students.

The ceremony was attended by several directors and officials from Fujairah, as well as academic and administrative staff from the university, and the graduates’ colleagues and families.”

## The College of Business Administration organizes the summer camp (Future Entrepreneurs) in cooperation with the Emirates Association for Women Entrepreneurs

Wednesday, Jul 05, 2023

The College of Business Administration organizes the summer camp (Future Entrepreneurs) in cooperation with the Emirates Association for Women Entrepreneurs.

The College of Business Administration at the University of Science and Technology of Fujairah organized the summer camp (Future Entrepreneurs) in cooperation with the Emirates Association for Women Entrepreneurs.

This initiative is one of the goals of the university and the college, along with others, to build bridges of cooperation with the local community in the UAE, particularly in the field of entrepreneurship as one of the essential strategies for the country, as the National Agenda for Entrepreneurship aspires for the UAE to become the home of entrepreneurship in the year 2031. This initiative comes among the goals of the university and the college to build

bridges of cooperation with the local community in the UAE.

This collaboration between the university and the Emirates Association for Women Entrepreneurs results in human capital development. It encourages many elements of society, beginning with youths, to explore the field of entrepreneurship.

The program aims to teach secondary school pupils the skills required for entrepreneurship. The coursework includes many entrepreneurship tasks that were streamlined for the age range of school students. Workshops on entrepreneurship and transforming ideas into projects were part of the curriculum. There were also workshops and lectures on artificial intelligence, digital marketing, sustainability, and interior design art. Also included are financial calculations, planning, and motivation. At the end of the program, the students will have developed a project proposal, as individuals or as

a team, begin implementing it, and be monitored by the college and the association.

The workshops were presented by Dr. Ahmed Zain Al-Abidin, Dr. Abdullah Al-Amin, and Mr. Eid Mostafa

On the last day, the workshops were presented by Dr. Sameh Khamis, Ms. Lamiaa Hussein

And Ms. Marah Aladdin.

The program also included business visits to some business establishments in Fujairah.

The graduation ceremony and an exhibition of the implemented projects will be held in the first week of next September.
