(MIE)
PROGRAM

1. Master In Entrepreneurship (MIE)

The College of Business Administration (CBA) - seeks to improve and enrich its current program in order not only to attract more students but also to become more competitive through improved programs. The CBA also supports the vision and mission of the University of Science and Technology of Fujairah, which seeks to become one of the leading institutions of higher education in the Gulf region. Additionally, the CBA Master In Entrepreneurship (MIE) Program aims to maintain an active role in advancing and contributing to the business communities in UAE and, more significantly, in the Fujairah emirate. Towards this end, the CBA MIE Program seeks to offer excellent programs to its learners. Introduction of MIE is expected to help graduates acquire additional skills, knowledge, and abilities (SKAs) that will enhance their competitiveness in the labor market, as it is stipulated in the education policies of the Emirate of Al Fujairah's government.

Even in challenging economic times, the MIE degree holds its value as a tool for job security and carrier advancement. MIE degree offers a broader scope of career opportunities than one could expect with a bachelor's degree. The importance of an MIE cannot be understated.

The UAE is experiencing an enormous economic growth, over the past decade, the UAE labor market has witnessed a marked increase in the proportion of skilled workers, IT professionals, business graduates, researchers, scientists, and a broad spectrum of other professionals, commonly referred to as "knowledge workers". This trend is expected to continue as the country enters the next decade. The increasing demand for knowledge workers has created several opportunities and challenges for institutions of higher learning to design graduate programs to build the skills of young people in different fields of specialization. In response to these developments, College of Business Administration (CBA) is proposing a master's degree in in Entrepreneurship specialization, to prepare students to meet the emerging needs of the knowledge economy.

2. Distignusishing Features

The Master of Entrepreneurship (MIE) program offered by the University of Science and Technology of Fujairah (USTF) is a unique and highly-regarded program that prepares students to launch and grow successful businesses. The program is distinguished by its:

- ❖ **Practical focus:** The MIE program is designed to give students the skills and knowledge they need to start and run a business, from ideation to exit. Students learn from experienced entrepreneurs and business leaders, and they have the opportunity to work on real-world projects through the program's Startup Garage.
- ❖ **Global perspective:** The MIE program is taught by a diverse faculty from around the world, and students have the opportunity to network with entrepreneurs and business leaders from all over the world. This gives students a global perspective on entrepreneurship and helps them to develop a network that can support them in their future endeavors.
- ❖ **Industry-relevant curriculum:** The MIE program's curriculum is constantly evolving to reflect the latest trends in entrepreneurship. Students learn about a wide range of topics, including business planning, marketing, finance, and operations. They also have the opportunity to specialize in a particular area of entrepreneurship, such as social entrepreneurship or venture capital.
- ❖ **Flexible format:** The MIE program is offered in a flexible format that allows students to work full-time while they study. This makes the program accessible to a wider range of students, including those who are already working in the business world.

3. Learning Resources

The university's own library has a large collection of books, journals, and articles on entrepreneurship. You can access the library's catalog online or in person

4. Admission Requirements

In accordance with the University's requirements for graduate degrees, a candidate to be admitted into the MIE program must fulfill the following requirements:
